STATE OF MARYLAND

FORTY-THIRD ANNUAL REPORT

SHOWING CONDITION

OF THE

PUBLIC SCHOOLS OF MARYLAND

FOR THE

YEAR ENDING JULY 31ST, 1909

GEO. W. KING PRINTING CO.

STATE PRINTERS

1909

LETTER OF TRANSMITTAL.

STATE OF MARYLAND,
DEPARTMENT OF EDUCATION,

OFFICE OF THE
STATE BOARD OF EDUCATION,
ANNAPOLIS, October 7, 1909.

TO HIS EXCELLENCY, AUSTIN L. CROTHERS,
Governor of Maryland.

SIR:—I have the honor to transmit to you the Annual Report of the State Board of Education for the fiscal and scholastic year ending July 31, 1909, with accompanying documents, as required by law.

Very respectfully,

Your obedient servant,

M. BATES STEPHENS,

Secretary.

INTRODUCTION.

The Forty-Third Annual Report of the State Board of Education, which is herewith submitted, shows a steady advance in many of the essentials that make for an effective school system. Perhaps there is no more striking proof that our public schools are better appreciated by school patrons than the fact that for several years there has been a gradual increase in the percentage of attendance. If a comparison be instituted between the statistics of this report and the one for the preceding year, it will be found, including Baltimore City, that there has been an increase of 2764 in total enrollment, while the increase in average attendance is 7544. It is significant that there was an increase of \$276,950 in school revenues, and it is highly gratifying to note that \$143,244 of this amount went toward increasing the salaries of teachers.

SALARY LAW OF 1908.

The extraordinary increase in the item of "Teachers' Salaries" is, in the main, attributable to the legislation passed in 1908, known as the "Brady Amendment" to the School Bill at that time before the General Assembly.

In 1904 the Legislature decreed that no white teacher regularly employed, whose school averaged fifteen or more, should receive as salary less than \$300 per annum. While this was a splendid recognition of teachers in general, it produced an unusual condition. Several counties failed to increase the local appropriations, and School Boards, in some instances, did not have sufficient funds to meet the requirements of the law, and at the same time arrange their salary schedule as a classification of certificates presupposes; and in those counties the best teachers, and those whose work was not altogether satisfactory, received practically the same compensation. In fact, there were a few cases in which the salaries of teachers holding first class certificates had to be reduced to enable the Board to pay all teachers the minimum required by the law.

The Brady Amendment, since it provides a scale of salaries based on efficiency and service, is a recognition of our best and most experienced teachers; its effect in general has been wholesome, but

an experience of one year's operation of the law suggests that it should be modified in some respects. The County Superintendent should be directed to reclassify certificates annually, and he should be furnished with some basis for this classification. Inasmuch as the law of 1904 fixes a minimum average attendance of 15 pupils in order to be guaranteed the \$300 salary, it would make the school laws pertaining to teachers more consistent should some limit in average attendance be specified in the law of 1908.

SCHOOL SUPERVISION.

School work, like an industrial or commercial enterprise employing many people, must have expert supervision, if we expect the best results. New conditions in the life of the community have made heavier demands on our system of teaching, and while teachers generally are devoting themselves industriously and energetically to school tasks, they need the help and the encouragement which frequent supervision of their work makes possible. Our law is not at all adequate in its provision for close supervision of school work; indeed we are behind other progressive States in this particular.

Chapter 584 of the laws of 1904 provides:

"In counties where the number of teachers shall exceed one hundred and seventy-five, the Board of County School Commissioners may, in their discretion appoint an assistant county superintendent."

If this law were consistent, and provided that an additional assistant may be appointed for each additional one hundred and seventy-five teachers, it would still provide a very modest plan for supervisory work. The law as it now stands does not explicitly give the County School Boards power to appoint the supervisors actually required by our present system, and should be changed to meet the situation. When compared with other States, the cost of supervision in Maryland is low. When the present scheme of supervision was inaugurated, the amount of money spent annually for public schools and the school population were much smaller than it is at present. There has been a rapid increase in total expenditures without a corresponding increase in cost of supervision, and we feel that the economy in this particular may be interfering with the general progress of the school system. The County School Board should have the authority to appoint one supervisor for each County, and an additional one for every one hundred teachers.

HIGH SCHOOLS.

There is no definition either in the statute law or in the by-laws of the State Board of Education of an approved high school. While an inspection of such schools is required by law, and a list is approved annually by the State Board of Education, neither the person who makes the inspection, nor the Board which certifies to the accredited list has a legal guide outlining the essential requirements these schools must meet. In the absence of a definite standard for measuring the work, both as regards quality and scope, there is danger such schools will multiply too rapidly and the standard of instruction may be affected adversely in consequence thereof.

The Legislature will do well to amend the law pertaining to approved high schools by outlining essential elements which these schools must possess, including departments of work, a minimum number of pupils in the high school grades, minimum number of teachers to be employed, and the necessary equipment. As a safeguard against promoting pupils into the high school department too rapidly from the lower grades, the County Superintendent should be required to approve all such promotions. Such action on the part of the General Assembly will restrain hasty efforts to organize high schools where conditions are not ripe for such, and will have the effect to improve the character of secondary school instruction.

STATISTICAL SUMMARY.

A summary of school statistics for the year ending July 31, 1909, in the counties, and year ending December 31, 1908, in Baltimore City, as compared with previous year.

Number of schools in Baltimore City.....	107
Number of schools in counties.....	2,370
Total	2,477
Being a decrease in 1909 of 25.	
Number of different pupils, city.....	89,995
Number of different pupils, counties.....	149,425
Total	239,420
Being an increase in 1909 of 2,764.	
Average number in daily attendance, city.....	55,501
Average number in daily attendance, counties.....	91,517
Total	147,018
Being an increase in 1909 of 7,544.	
Number of teachers, city.....	1,778
Number of teachers, counties.....	3,674
Total	5,452
Being an increase in 1909 of 95.	
Number of months schools were open, city.....	10
Number of months schools were open, counties (average).....	9.41
Average	9.7
Being the same as 1908.	
Receipts from all sources, city.....	\$1,827,755.30
Receipts from all sources, counties.....	2,191,663.98
Total	\$4,019,419.28
Being an increase in 1909 of \$276,950.23.	
Amount paid, teachers' salaries, city.....	\$1,367,893.65
Amount paid, teachers' salaries, county.....	1,311,765.59
Total	\$2,679,659.24
Being an increase in 1909 of \$143,224.79.	
Amount paid repairing and furnishing schoolhouses, city.....	\$17,292.93
Amount paid for building, repairing and furnishing schoolhouses, counties.....	290,796.86
Total	\$308,089.79
Being an increase in 1909 of \$60,439.86.	
Amount paid for rent, fuel and incidentals, city.....	\$112,809.62
Amount paid for rent, fuel and incidentals, counties.....	145,338.54
Total	\$258,148.16
Being an increase in 1909 of \$23,856.27.	
Total expenses for public school purposes, city.....	\$1,754,974.04
Total expenses for public school purposes, counties.....	2,179,439.16
Total	\$3,934,413.20
Being an increase in 1909 of \$269,720.51.	

Amount received from State school tax, free school fund, academic donations, free book fund, manual training fund, and commercial fund....	\$1,468,944.18
Amount received from county and city tax.....	2,296,954.09
Total	\$3,765,898.27
Being an increase in 1909 of \$262,800.20.	
Amount paid for miscellaneous expenses.....	\$223,658.40
Being an increase in 1909 of \$39,752.61.	
Number in First Grade, Jan. 1, 1909.....	56,205
Being an increase in 1909 of 3,637.	
Number in Second Grade.....	30,760
Being a decrease in 1909 of 20.	
Number in Third Grade.....	31,103
Being an increase in 1909 of 362.	
Number in Fourth Grade.....	27,559
Being an increase in 1909 of 319.	
Number in Fifth Grade.....	21,880
Being an increase in 1909 of 1,067.	
Number in Sixth Grade.....	15,559
Being an increase in 1909 of 616.	
Number in Seventh Grade.....	10,724
Being a new item.	
Number above Seventh Grade.....	12,119
Being a new item.	
Total enrollment, Jan. 1, 1909.....	204,851
Being an increase in 1909 of 7,091.	
Percentage of attendance.....	77.5%
Being an increase in 1909 of 1.3%.	
Per capita cost.....	\$18.07
Being an increase in 1909 of \$1.09.

DISTRICT SCHOOL TRUSTEES.

BY THE STATE SUPERINTENDENT.

More than forty years ago there was established by authority of law in Maryland a system of free public education which, from time to time, has been modified and improved by legislative sanction. It is always pertinent, especially when nearing the time for the General Assembly to meet, to inquire whether the machinery of the system is so constructed and adjusted as will insure the least friction in its running and the best practical results from its operation.

Many phases of school work, including what we may do toward reaching a higher plane of professional excellence for the teacher, have been committed to legally constituted School Boards and duly appointed school officials with power to act within the scope and purview of law. But the organization of the various boards, which may properly be regarded as the basal machinery of systematic school work, is a statutory provision and only the General Assembly can modify or change it.

For an effective administration of its schools, there have been provided by the State three different Boards, each charged with separate and distinct duties and each possessing specific and peculiar powers.

1. We have the State Board of Education, consisting of six members appointed for a term of six years by the Governor of the State, who, together with the Governor and the State Superintendent as members *ex-officio*, compose said Board. At least one-third of the members appointed by the Governor must be men whose political affiliation is with the minority party. This Board represents the State which inaugurated and fosters the system. The State Superintendent, who is appointed by the Governor, is the Executive officer of the State Board of Education. Perhaps the consistency of the plan would be better regarded if this official were selected by the members of the State Board of Education, since he is their executive officer.

2. Next comes the Board of County School Commissioners, representing the County, whose members are appointed by the Governor for a term of six years, with minority representation

guaranteed. This Board selects the County Superintendent, who also acts as Secretary and Treasurer of the County School Board and thereby becomes its executive officer. The powers hereby conferred make it possible for the County Board to generously second the State Board and co-operate in bringing about the essentials of a uniform system.

3. We then have the Board of District Trustees, appointed annually by the Board of County School Commissioners, who appoint the principal teacher, and said teacher becomes the Secretary and Executive officer of the District Board.

It is difficult to conceive of a more beautiful arrangement of school machinery than herein provided. We have a State Board representing the State, with the State Superintendent as its Executive officer; a County Board representing the County, with the County Superintendent as its Executive officer, and, finally, the Board of District Trustees representing the people of the school district, with the teacher as its Executive officer. No one can say that our system is not admirably devised, nor can it be denied that, when all its parts are working harmoniously together—when each Board is living up to what the law expects of it—school results will be most satisfactory. But no law, however much it may be needed, no school system, however perfect in its scheme, can succeed in our State unless “the great popular heart beats responsive.”

After a trial of almost a half century, we are in a position to deduce some conclusions as to the merits of our plan for school administration which has been modified but slightly since the inauguration of the system. It can be assumed that republican government “is founded in and rests upon the virtue and intelligence of the people,” and that the public school is the State’s vehicle for scattering broadcast this public virtue or popular intelligence. The free school, then, is a necessary complement of free popular government, and it would seem that its control and management should be as absolutely in the hands of the people as is the State or National Government, for whose civic duties or obligations of citizenship the public school was organized especially to prepare the individual.

Evidently the framers of our school law meant that local school affairs should be controlled by the people of the school district through the trustees—their legally appointed representatives in the system. There is a conviction entertained by many that the

people are somewhat removed from the direct management of the school and that the trustees are not actually the representatives of the people of the school district because the *people* did not select them. There seems to be considerable force in this criticism. When we recall that every person connected with education in Maryland is an appointee and not one chosen by popular vote, it would appear that our school system in this regard is not as American or republican in its organization as we may, at first glance, imagine. Perhaps no other question touches so many sides of the citizen as does public education, and yet he has no *direct* voice in selecting those into whose hands the management of the schools is placed.

It is the spirit of the times to trust the people in the selection of their officers as manifested in the popular demand for direct primaries known as the Crawford County System. The idea of centralized power, where those who exercise authority are not directly responsible to the people, is not gaining headway and the trend of sentiment is toward popular election of public officials. Whether a change in the plan of choosing district school trustees will relieve the apathy which now exists in many of these local Boards and make these agents of the community such a bulwark to our system of public education as the original law contemplated, may well be doubted; a single modification of the school law as it effects this agency will not likely make men selected for the places unselfishly interested and efficient. It is highly probable that there would be a larger number of efficient teachers if all appointments were made by the County School Board; and it is also probable that the school situation would suffer measurably more by the loss of public sympathy and support, than it would gain by raising the standard of efficiency.

If the people can be aroused to greater enthusiasm for the school and can be made to labor more zealously for the interests of education by being permitted to elect their own trustees and thus feel that the men chosen as their agents are amenable for their acts to them, then school work will gain by the change.

It is well to remember that trustees are sometimes more "sinned against than sinning." We cannot lay at their door the responsibility for all the shortcomings in school progress. County school officials do not always select the best men for these positions and, as a result, the school will lack the confidence and appreciation of the public. Good men are often appointed, but there is a lack of sympathetic co-operation between the County and District Boards.

The Trustees are not advised of their duties and are not made to feel the importance of the positions they fill. There is not a hearty recognition of their "labor of love" and they are often made to feel that they are useless appendages to the system.

If trustees are still to be appointed by the County School Board, it will be necessary to extend to them greater recognition and the full exercise of the limited powers now granted.

The fact that the law gives to school trustees but few duties tends to make them less active than they would be if their powers were not so restricted. From the standpoint of administration, all schools of a county are on a level. The School District, as such, has no opportunity to develop individuality, and a spirit of friendly rivalry is choked by the absence of authority to levy a school tax on the district for the benefit of its school. The County School Board disburses the State and County appropriations in such a way as will carry into effect the requirements of the law in regard to minimum school year and minimum salaries, and this is right. The weak and the strong school districts receive like treatment. It would seem advisable, in addition to this uniform and systematic expenditure, in order to regard the essentials of uniformity in school work, to give to the people of every district the right to tax themselves if they should decide to improve their school property beyond the point the County School Board finds itself able to do, purchase libraries and apparatus, and pay the teacher more salary, if the exigencies of the case require it. The law could fix a maximum rate for such taxation if deemed advisable; but the authority to do it would likely beget a new interest in the school, and the discussions consequent upon the exercise of the privilege would be salutary in raising local school affairs to a higher plane of excellence.

It seems necessary, in order to secure a more effective and efficient administration of local school interests to do one of the three following things, viz:

1. Let the law stand as it now is and select the best material for the office of trustee. The County Superintendent should organize the trustees, and meetings should be held at least annually. It would add to the value of such gatherings if the meeting should be attended by both trustees and teachers—the morning session being given over to teachers and the afternoon to trustees. It would be well to have a representative teacher speak to the trustees, and a representative trustee speak to the teachers. What

is most needed is a better understanding and a higher appreciation, by the trustees of the part the law expects of them in the system. They cannot grow into these unless some one takes it upon himself to direct them in the right channel. Since trustees serve without financial compensation, it will be money well invested to spend a reasonable sum to make the annual meeting both pleasant and instructive. The cost of a luncheon (unless entertained by the citizens of the town), to be served at the school building, should be defrayed by the County School Board. Such an innovation will not only bring to him essential knowledge bearing on his official duties, but it will make the trustee feel that he is recognized as a factor in educational progress, and there will result more effective co-operation between teachers and patrons.

2. The present plan can be changed and instead of three local trustees there may be one, who, together with the County Superintendent and one School Commissioner, shall have control of the School District. This arrangement would likely remove the appointment further from local considerations (if any obtained), and increase the chances of appointing a person on merit alone. But the idea involves a longer stride toward centralizing power into the hands of the County School Board, and removing the people from the control of their own school matters. It would be more difficult, perhaps, to induce a good person to accept the position where but one local trustee is appointed, as he would be held responsible for conditions, while really he might not be to blame, in as much as the members of the County School Board would be in the majority in every case.

3. There could be fixed by law a day, preferably about the first of May, when the qualified voters of each school district could meet and choose by ballot three persons to serve as their representatives for at least one year, and the result of the election reported to the County School Board. Should they decide to tax themselves for school improvements, additional to what the County Board makes, they should have such power. If they wish to give a nominal sum to those who are elected trustees, they should have the authority to do so. Such a plan will not interfere with the State or County School officials in their efforts to improve the schools and to guarantee to every community reasonable opportunities for a school education. On the other hand, it may supplement the amount of money already spent to increase school facilities. If it will have the effect to bring the problem of education closer to the

people and enlist from them a more active and sympathetic support, make them feel that the schools are theirs and that they are responsible for their progress and secure, in a larger measure, their co-operation with the teachers, it will do good and is worth the trial.

PUBLIC HIGH SCHOOLS.—Approved by the State Board of Education.

NOTE.—The schools in this list have been inspected, recommended by the State Superintendent, and approved by the State Board of Education; they complete satisfactorily the curriculum prescribed by the State Board, and graduates may enter the normal course of the State Normal School.

PROCEEDINGS OF THE HIGH SCHOOL TEACHERS' ASSOCIATION.

BALTIMORE, MARYLAND.

NORMAL SCHOOL.

December 3, 1908.

After a most profitable morning spent visiting the schools of Baltimore City, the institute opened at 1.30 P. M., with President Burgee in the chair. A happy beginning by the Normal School Glee Club was followed by a fitting address by Dr. M. Bates Stephens. Dr. G. D. Strayer, of the Teachers' College, Columbia University, gave a talk on "Professional Growth of the High School Teacher," and Dr. Edward F. Buchner, of Johns Hopkins University, did not fail in his mission—a spicy filling; 8.30 P. M., thanks to Dr. Ward, we were favored not only with an address, "A Look Backward and Forward," but also with three selections by the Glee Club. Dr. Francis H. Green, of the West Chester, Pennsylvania, Normal School, instructed and entertained the audience with his lecture, "The Teacher's A., B., C."—Aim, Bravery, Consecration.

Friday, December 4th, 9 A. M.—Seventy-six teachers registered, making a total of \$18.00 for dues, from which the president, Professor Burgee, was paid \$10.00 for expenses.

The institute was continued with an address by Dr. Strayer, on "The Study Problem in the High School." The problem stated special consideration of habit formation and memorizing. The institute then went into the hands of the teachers, beginning with a round table led by Prof. Robert H. Wright, of the Eastern High School, topic: "Would a High School Superintendent be for Best Interests of High Schools." After a heated discussion, Mr. Murphy moved that this body favor High School Supervision. This was seconded and carried by a vote of 38 to 12.

Prof. Hugh W. Caldwell introduced the question of the great weakness of our high schools. After a number of principals saying in various ways that "good teachers make good schools," Mr. J. B. Noble, of Centreville, said there was more difficulty in coping with the over-crowded curriculum, than that the teachers were so poor.

On account of the illness of Prof. Geo. F. Morelock, the discussion, "Shall our meetings continue the Institute plan? If so, shall such meetings be held in December or June?" was conducted by the president. The question was left unfinished, in order to adjourn

for noon, but the general tone was objection to the present time of meeting.

Friday, 1.30 P. M.—Dr. G. D. Strayer finished up his work on the Study Problem in the High School, combined with Independent Work Involving Reasoning.

Dr. Robt. H. Gault, of Washington College, made a plea for Psychology for the Professional Training of Teachers.

The business session was then continued, a motion being made that Tuesday and Wednesday, after Easter, be the date of future meetings, but this was found to be unconstitutional. Professor Wright then moved that the institute plan be continued and that a committee of three be appointed by the chair to look into the constitution, so as to fix a date of meeting.

The next in order was the election of officers for the ensuing year. Mr. Wright, of the Eastern High School, and Mr. Hill, of the Cumberland High School, were nominated. Mr. Wright was declared elected by a vote of 28 to 13. Miss Rose was re-nominated by Mr. Hill and Miss Baldwin by Mr. Pfeiffer. Miss Baldwin was declared elected by a vote of 18 to 15. Mr. Austin was nominated for vice-president and seconded. There being no further nominations, they were closed and Mr. Austin was declared elected.

A motion was made that a vote of thanks be extended to Dr. Ward for his hospitality, and also to the gentlemen who so kindly gave their time and instruction to the success of this meeting.

Meeting adjourned.

CLARA ESTELLE ROSE,

Secretary.

MOUNTAIN LAKE PARK, June 30, 1909.

The first regular meeting of the High School Teachers' Association, in the year 1909, was held at Mountain Lake Park, June 30th, in the Hall of Philosophy. There were about 25 members present. In the absence of the president and vice-president, Mr. Galbreath, of Harford, was appointed chairman *pro tem*.

The session was given up to a discussion of the majority and minority reports of the committee appointed to consider the "time of meeting." Mr. Caldwell presented the majority report, making the following suggestions:

Report of Committee on "Time of Meeting," appointed by the president, as directed by the Association at its December meeting, 1908.

The committee makes the following recommendations:

(a) That for the year 1909, the mid-winter meeting of the Association be held on the Monday, Tuesday, Wednesday of Thanksgiving week—November 22-24, inclusive.

(b) That beginning with the year 1910, the Association adopt the plan of holding a five days' High School Teachers' Institute *during the first week of September each year.*

Respectfully submitted,

HERBERT E. AUSTIN,
HUGH W. CALDWELL,

Committee.

Mr. Hill gave the minority report, which contained the following plans:

(1) That there should be a mid-winter meeting held in the evening, in which there should be a banquet, followed by a business meeting.

(2) That a week of institute work be held at a time when the State Teachers' meetings should be in session.

Among the difficulties raised regarding the majority report, was that some of the County School Boards would only grant one day during the winter; that the first of September was impossible, as the high school teachers were needed in connection with the institute work of their own counties.

Dr. Stephens, when called on for his opinion, said the ideal time was the first of September, if the boards would grant it; but as they would not, there was no use in voting for that. He suggested that the mid-winter meeting be given up to observation and social enjoyment, and that the High School Teachers' Association ask the State Association to give up a day or afternoon to them in order to have section meetings.

Another idea presented was that of meeting during the winter in some place outside of Baltimore and Washington, and visiting the high school of that locality. In regard to this Dr. Stephens declared nothing would be more profitable to a high school than to know a year ahead that the Association would visit it. Informal invitations from Denton, Salisbury and Cumberland were then received.

Mr. Holloway suggested the Manual Training Teachers' Association ought to be included in the High School Association.

After this the minority report was adopted. Upon further discussion, Mr. Handy moved, and it was seconded, that this be reconsidered. When the necessary motions had been made, the minority report, with the following changes, was then accepted and adopted.

Minority report. Recommended:

1. That the mid-winter meeting of the Association be as formerly, for one day, and confined to social and business matters, and visiting of schools.

2. That for instruction in and discussion of high school problems, institute work be arranged in conjunction with the State Association work in the summer.

3. That a committee of three be appointed to confer with the Executive Committee of the State Association, making arrangements for high school work on the program.

HOWARD C. HILL,

Member of the Committee.

The chairman appointed Messrs. Handy, of Easton, Porter, of Belair, and Hill, of Cumberland, as the committee.

The meeting then adjourned.

ROSA BALDWIN,

Secretary.

PROCEEDINGS OF THE MANUAL TRAINING TEACHERS' ASSOCIATION.

December 4, 1908.

The Manual Training Teachers' Association, of Maryland, held its regular annual fall meeting at the State Normal School, Baltimore, Friday, December 4, 1908, at which time different subjects relative to the betterment of Manual Training in Maryland were discussed.

The Association was most fortunate in having Professor Hopkins, of the Maryland Institute, present, to speak on the subject, "The Relation of Art to Industry." The subject was very timely and created quite an impression upon the members of the Association, he being one who could speak with a great deal of force upon that subject.

The regular spring meeting of the Association was held in the Manual Training Department of the Westminster High School, Westminster, Md., April 7th and 8th, 1909. The meeting opened on Wednesday night, April 7th, with an address of welcome by Dr. Hering, Comptroller of Maryland, which was responded to by the president of the Association, Mr. Luther Forsyth, of Hagerstown, Md.

April 8th was devoted to the regular business of the Association. The meeting opened at 9.35 o'clock, with the president presiding, and quite a large attendance of Manual Training Teachers.

The question of better attendance to these meetings was discussed at great length by all members present; it being the unanimous opinion that unless the meetings are better attended Manual Training would not develop into that harmonious purpose for which it was intended.

On motion it was decided that it was the sense of the Association, that, if it were possible, the State Superintendent be asked to co-operate with the Association in trying to make these meetings compulsory, the same as the regular County Institutes. The president was asked to confer with the State Superintendent relative to this compulsory attendance.

Questions often arise as to the proper relation of High School Principal to the Manual Training Instructor. Therefore, a committee was asked to report, with the following result:

First. The High School Principal had no jurisdiction over the Manual Training Instructor. but that there should be a unity in the proper formation of the schedule of classes.

Second. In case any disagreement should arise, the County Superintendent should decide.

It was the sense of the committee that no Inspector of Manual Training should be recommended at this time. The work of the committee was highly endorsed by the Association, and the committee asked to be continued.

The Association was most fortunate in receiving the services of Professor Widderson, of the Western Maryland College, who spoke at some length upon "The place of Manual Training in the Public School Curriculum." Professor Morelock, Principal of the Westminster High School, spoke on the strides that Manual Training has taken in the last ten years in Maryland. Other papers on various topics relative to Manual Training work were given by Mr. Hidey, of Westminster, Mr. Strawbridge, of Havre de Grace, and Mr. Edgar, of Elkton.

The following officers were elected for the ensuing year:

President—E. A. Hidey, Westminster, Md.

Vice-President—H. A. Loraditch, Oakland, Md.

Secretary-Treasurer—H. M. Lippy, Baltimore, Md.

Executive Committee—Spencer Stull, Frederick, Md.

— Laurance Magness, Sparrows Point, Md.

Albert L. Farver, Cambridge, Md.

A special meeting of the Association was held at Mountain Lake Park, Wednesday afternoon, June 30th. Mr. E. A. Hidey, of Westminster, Md., read a paper on "Manual Training, What It Is, and What It Does for Our Boys and Girls." Addresses were also given by Messrs. Bruehl and Strawbridge.

A message was received from Dr. Grady, Chairman of the Committee of Industrial Commission, requesting a conference. Thursday morning, a committee consisting of Messrs. Edgar, Loraditch, Bruehl and Hidey met the commission. A number of important questions concerning Manual Training were discussed at length. Dr. Grady expressed himself as being very much pleased with the outlook for Manual Training in Maryland. Dr. Grady is the man who was instrumental in founding the old Manual Training School, in Baltimore, which is said to be the first of its kind in this country.

HERBERT M. LIPPY,

Secretary-Treasurer.

REPORT OF MANUAL TRAINING WORK IN BALTIMORE COUNTY.

SPARROWS POINT, MD., June 25, 1909.

DR. M. BATES STEPHENS,

State Superintendent of Public Education, Annapolis, Md.

MY DEAR DR. STEPHENS—I enclose report of our Manual Training Department of the public schools of Baltimore County for the current year, ending today.

Yours sincerely,

D. FRED. SHAMBERGER.

Number of Manual Training teachers employed, 2—D. Fred. Shamberger and L. F. Magness.

Number of Manual Training Centres, 5—Sparrows Point, Highlandtown, Towson, Reisterstown and Catonsville.

Number of boys enrolled at Sparrows Point, 168.

Average attendance, 156.

Number of boys enrolled at Towson, 65.

Average attendance, 62.

Number of boys enrolled at Catonsville, 49.

Average attendance, 44.

Number of boys enrolled at Highlandtown, 188.

Average attendance, 182.

Number of boys enrolled at Reisterstown, 85.

Average attendance, 81.

Number of graded schools in which Manual Training has been taught in the higher classes under supervision of the principal, 18.

Number of students enrolled in these schools in Manual Training work, 285.

The character of the work in all classes has been raised the past year.

Boys with very few exceptions, have worked enthusiastically.

In the selection of models, usefulness and stability have been given preference at the same time embodying those principles and exercises desired to be taught.

Many boys have availed themselves of the opportunity to take special instructions in mechanical drawing and construction work, and the work accomplished in the majority of cases has been of an exceptional high character.

We have correlated all school subjects with Manual Training as far as we have found it practical to do so.

Original work has been done along the line of induction coil making, direct current motor design and construction, bee hive construction, chicken-brooder construction, seed-corn testing and germination, barometer construction, seismograph building, architectural design and construction of miniature houses.

The student upon entering this work makes a study of the subject in hand, its technique and practical features, gets out a complete working drawing for the model and upon its construction is required to write an essay setting forth the principles involved.

This has a great tendency to bring out the boy's individuality and many principles learned from his various text-books are practically applied.

Respectfully submitted,

D. FRED. SHAMBERGER.

REPORT OF DENTON COLORED INDUSTRIAL SCHOOL.

SEWING AND COOKING DEPARTMENT.

TERM BEGINNING OCTOBER 12, 1908, ENDING APRIL 16, 1909.

Number of Pupils—Girls.	Grade.	Attendance in Days.
7	1	650
4	2	500
7	3	626
10	4	500
10	5	864
2	6	213
2	7	200
42		3,553

Number of days school open, 126.

Average daily attendance, 20.

First Grade, sewing, 3 hours per week.

Second Grade, sewing, 3 hours per week; housekeeping, 2 hours per week for 63 days— $\frac{1}{2}$ term.

Third Grade, housekeeping, 2 hours per week for 63 days— $\frac{1}{2}$ term.

Third Grade, sewing, 6 hours per week.

Fourth Grade, sewing, 3 hours per week; cooking, 6 hours per week for $\frac{1}{2}$ term.

Fifth Grade, sewing, 4 hours per week; cooking, 6 hours per week for $\frac{1}{2}$ term.

Sixth and Seventh Grades, sewing, 4 hours per week.

Fifty-six lessons in cooking to each grade (Fourth and Fifth), 116 recipes.

UPHOLSTERY—CANING—BASKETRY DEPARTMENT.

Number of Pupils—Boys.	Grade.	Attendance in Days.
6	1	350
5	2	300
8	3	612
6	4	582
4	5	198
3	6	287
3	7	298
35		2,627

Number of days school open, 124.

Average daily attendance, 20.

First Grade, raffia work, 3 hours per week.

Third and Fourth Grades, raffia and reed work, 4 hours per week.

Fifth Grade, raffia and reed work and caning, 3 hours per week.

Sixth and Seventh Grades, upholstery and caning, 3 hours per week.

About sixty garments were made in the Sewing Department by the Third, Fourth, Fifth, Sixth and Seventh Grades. First and Second Grades made models, including six of the fundamental stitches, some paper folding and hand weaving.

A large number of models were made by the Second, Third and Fourth Grade pupils, using raffia and card-board. Eight scrap baskets, besides other baskets, were made by the Fourth and Fifth Grade pupils, also one doll's bedstead. Fifth and Sixth Grade boys caned eighteen chairs.

One boy made a chair and upholstered it—Sixth Grade.

One boy made a chair and caned it (a rocker)—Seventh Grade.

Submitted by

E. M. NOBLE,

DENTON, MD.

Superintendent.

LIBRARIES.

The law-making provision for district libraries is stated briefly in the following words: "For the further encouragement of education, district libraries ought to be established in each school house district under the care of the teacher as librarian; for this purpose the sum of ten dollars per annum is ordered to be paid by the Board of County School Commissioners out of the State School Fund, to any school house district as library money, as long as the people of the district raise the same amount annually; the books must be selected by the Board of District School Trustees and Teachers from a list to be furnished by the State Board of Education."

In 1907 the State Department of Education published a list of books for public school libraries and a copy was furnished each school. Library statistics furnished by the several county superintendents are appended herewith, together with the number of volumes in each county teachers' library.

The Chapters on "Public Libraries and Public Schools" and "School Room Libraries" are taken from the Committee on the Relations of Public School Libraries to Public Schools made to the National Educational Association in 1899.

COUNTY SUPERINTENDENTS' REPORTS ON LIBRARIES.

Superintendent Willison, of Allegany County, reports that nearly every school in his county has equipped itself with a library. They range in number from 20 to 1500 volumes and are above the average in quality and usefulness, and that the Teachers' Library contains 325 volumes on professional subjects and 300 supplementary volumes.

Superintendent Noble, of Caroline County, reports that about all of his schools have libraries with an average number of, say 50 volumes, in each. Many of these books are not properly graded, being beyond the taste of the average pupil. To overbalance this, the teachers are putting in a great number of books for the primary grades where the taste for reading must be formed, if at all. There are from 2 to 300 books in the Teachers' Library, consisting of books on Primary, Grammar, and High School Methods, Pedagogy, Psychology, Child Study and allied subjects.

Superintendent Simpson, of Carroll County, reports that about 75 of his schools have libraries, averaging some 30 to 80 volumes per school. The books have been selected with care and are in a fairly good condition. The Teachers' Library contains about 75 books on Pedagogy.

Superintendent Biddle's report states that all schools in Cecil County save one have a library; in a very few the library is small and consists of books sent out by our Board in the way of supplementary reading and the books of the Reading Circle—those supplied by the Board,—are a part of the library. They number from 25 to 650 and are generally of a biographical or historical nature with some standard fiction. In a few cases there is fiction not of a high order. Many schools have a good encyclopedia. Our county is divided by a number of rivers so that access from one section to another is difficult; a central library would be used only by a few, so we have no Teachers' Library.

Superintendent Beckwith reports that the greater number of schools of Dorchester County have libraries, the number of volumes ranging from a few to 500; the general character and condition is good. No Teachers' Library has been established.

Superintendent White, of Frederick County, reports that 85 schools have libraries, ranging from 25 to 400 volumes in each school; that the general character of the books is good and that most excellent ones are found in quite a number of the libraries. Frederick County now has an approved list of books that the teachers must purchase when asking for an appropriation from the School Commissioners. There are 304 books in the Teachers' Library.

Superintendent Browning, of Garrett County, reports that about 39 of his schools have libraries, ranging from 100 to 1200 volumes; the books have been carefully selected, generally by committees appointed for that purpose. The Teachers' Library has 400 good books.

Superintendent Wright, of Harford County, reports that about 60 schools have libraries, with an average of about 100 volumes in each school. The books have heretofore run too much to fiction, but for the last two years other kinds of literature have been added, such as History, Travel, Biography, etc. The Teachers' Library contains 158 volumes, mostly pedagogical.

Superintendent Phillips, of Howard County, reports that about half of his schools have libraries, but does not state the average

number of volumes; that the character of the books is generally good, especially those published in recent years. The Teachers' Library contains about 300 volumes.

Superintendent Melvin, of Kent County, reports that 27 of his schools have libraries, the number of volumes ranging from 50 to 500; that too large a number is fiction and many better suited to adults; in the rural districts the books are used by patrons. The Teachers' Library contains 217 volumes.

Superintendent Wood, of Montgomery County, reports that probably 60 per cent. of his schools have libraries, the number of volumes ranging from 75 to 1100; the general character unfits them for children, being standard works of the best authors and too deep for the students to master. The Teachers' Library has about 300 well selected volumes.

Superintendent Sasscer, of Prince George's County, makes a full report, showing the number of volumes in the library of each school; they range in number from less than 50 to about 300. No Teachers' Library has been established.

Superintendent Grimes, of Queen Anne's County, reports that all but 4 or 5 of his schools have libraries, averaging 50 volumes, and that, instead of having a Teachers' Library at the county superintendent's office, the professional books are distributed among the schools; they number about 475 volumes.

Superintendent Joy, of St. Mary's County, reports that 16 of his schools have libraries, averaging about 55 volumes to each school. The Teachers' Library contains 66 volumes.

Superintendent Dashiell, of Somerset County, reports that there are quite a number of small libraries in his county, but does not give the average number of volumes contained in each. No Teachers' Library has been established.

Superintendent Orem, of Talbot County, reports that 63 schools have libraries, averaging about 40 volumes. A large part of these books were bought some years ago by the School Board, and were carefully selected. Those bought by the teachers are usually standard works, but are often of such cheap print and binding as to make unattractive reading, besides seldom including anything of recent publication. As yet there is no Teachers' Library, though each school has been supplied with about 15 professional books.

Superintendent Fockler, of Washington County, reports 30 schools having libraries, containing about 250 volumes in each, and that the Teachers' Library has 141 volumes.

Superintendent Holloway, of Wicomico, reports that 80 per cent. of his schools have libraries, averaging about 100 volumes in each. The books, as a rule, are suited to pleasure reading by pupils of both sexes and of all school ages. The Teachers' Library contains 453 books on professional subjects.

Superintendent McMaster, of Worcester County, reports that school libraries are not as they should be in his county; that he has given the teachers all the encouragement in his power, but that not more than 50 per cent. have libraries; that the general character of the books is good, but that he cannot give the approximate number in each school. No Teachers' Library has been established.

Following are the two Chapters quoted from the Report to the National Educational Association of the Committee on the Relations of Public Libraries to Public Schools, above referred to:

I. PUBLIC LIBRARIES AND PUBLIC SCHOOLS.

The education gained at school must, with the great majority of people, be meager at the best. This may be, and should be, supplemented by extensive reading after the school life is finished. If this work is to be done well, and under favorable conditions, the pupil must, while in school, not only be trained to like good literature, but also, if possible, to use a public library intelligently. This demands cordial relations and intelligent co-operation between school and library authorities, between teachers and librarians.

The library must be regarded as an important necessary part of the system of public education. It is said that not more than one in five hundred of the inhabitants of Massachusetts are without library facilities. This should be the condition everywhere, and may be at no very distant time if those who should be most interested—the teachers of the country—will make a unanimous, persistent, and continued effort in this direction. There is nothing that appeals to people more generally, or to which they will respond more readily and liberally, than an effort to establish free public libraries, if the work is carried on with good judgment.

The teachers of a town should know the public library, what it contains, and what use the pupils can make of it. The librarian must know the school, its work, its needs, and what he can do to meet them. He must be able to supplement and broaden the work of the teacher of geography, science, history, or literature. He should meet the teachers from time to time and become generally

familiar with their work, and they should meet with him and become familiar with the library, what it contains, and its methods.

The librarian should make frequent bulletins for school use. He should make lists for collateral reading in history, not merely works on history, but biography, historical fiction, and poems treating of historical events.

The librarian should meet with the pupils occasionally and talk to them upon such matters pertaining to their reading as seems wise. They should have free access to the library shelves. The librarian should issue such special bulletins as may be wise—bulletins giving the books treating of local matters, if there be such; matters of present interest; for example, last winter a special bulletin giving a list of books treating of Hawaii, Cuba, the Philippines, and the Far East would have been of much value.

Children must be directed and trained in regard to their reading. They can no more be trusted to get their own knowledge of and taste for literature, unaided, than they can get their scientific and mathematical training in the same way.

If it is the duty of the state to see that its citizens know how to read, it is certainly no less its duty to see that they are trained to do the right kind of reading; otherwise the ability to read may be harmful rather than beneficial, both to the individual and to the state.

Not every place can maintain a public library. Some people must be deprived of the library facilities that many places have. But every state can, without great expense, maintain a system of traveling libraries that may reach every community in which there is anyone sufficiently interested to give proper attention to the matter. Some states, notably New York and Wisconsin, have undertaken the work, and anyone interested, by writing to Secretary Melvil Dewey, Albany, N. Y., or Mr. Frank Hutchins, Madison, Wis., can learn in regard to the details of the work in those states.

Librarians usually know books much better than teachers do, but children not nearly so well; therefore active co-operation is necessary to the accomplishment of the best results.

Pupils should, while in school, be trained to know and love good literature, to use reference-books, to economize time in reading, through the use of tables of contents, page-headings, etc.

Training pupils to read and love good literature is by far the most important work done in school. There is nothing else that a teacher can do at all comparable to it in value. It is the one thing the school

does that continues to contribute to one's education so long as he lives. We should never forget that it is not the ability to read, but the use made of that ability, that contributes to the destiny of a child.

Someone has said that education consists in formation of habits and the acquisition of tastes. This is certainly the case so far as reading is concerned, and all that the school and library can do, working together in harmony, is necessary to the best success in this matter of forming correct reading habits and good taste in literature.

SHERMAN WILLIAMS.

SCHOOLROOM LIBRARIES.

BY CLARISSA S. NEWCOMB, LIBRARIAN, NORTH SIDE SCHOOLS,
DENVER, COLO.

(First published in the *Colorado School Journal*. Added to the report at the request of J. C. Dana.)

To one who knows how to use books a well-selected library is one of the most valuable means of education. The training of children in the choice and use of books is therefore an important subject to all teachers. An early beginning is necessary, or else the great majority—those who leave school before the higher grades are reached—wholly escape this training.

But how shall this training be given, is the question. How shall we bring the child in touch with good books? Our experience in district No. 17, Denver, leads us to believe that each schoolroom should have its library. We have found that a collection of fifty books in a room, chosen with reference to the age and ability of the pupils in that room, is the most satisfactory means of forming a taste for good literature. We have tried other methods—the central library, the library in the principal's office, and the plan of moving books from one room to another. The room library—that is, a certain number of books which are the permanent property of the room—has proved the best, because it acts as a training school for the use of the larger public library. We favor the room library for the purpose of getting the little folks accustomed to the use of the books and for the immediate use of the pupils in the upper grades. The more expensive books which can not be afforded for each room are

kept in the principal's office. Thus the pupils are led to the public library, for the use of which these small collections have well trained them. That this room-library plan increases the demand for books from the public library has been demonstrated to us by the greater number of cards now held by the pupils.

Beginning with the second grade, each room in the district has its own collection of books, which remain there from year to year. As the children go from grade to grade they are each year brought in contact with another set of books new to them. Instead of moving the books, we move the children. Each room has its reference-books and its books for lending. When not in use, these are on a table or on shelves accessible to the children at all times. The pupil thus becomes acquainted with the books and feels a personal pride of ownership, and the close contact of the child with the books teaches him to love and respect them. He becomes interested in reading and familiar with his own small library.

Fewer disappointments occur in the selection of books than where the collection is larger; hence fewer obstacles are presented in the formation of a love for reading. The range of choice is narrowed, and the teacher feels the responsibility of directing the children's reading for the library is but another tool with which to mold the character of her pupils. All become readers if the teacher is skillful and tactful and enters sufficiently into child life to appeal to the pupils. Many teachers have found the library an effective means of reaching and interesting dull or indifferent pupils.

The teacher can influence and largely control the children in their choice of reading. A reference to a book little used is enough to commend it to someone in the room, and its reputation is established. Or some pupil may be asked to give an extract from a book he has lately read. That will interest the other children, who will wish to learn more about it. The recitation is made brighter, and that book goes into the homes and keeps the children from the street.

Each book is selected, not alone because of its intrinsic merit, but also because it has proved interesting to several children of like age and grade. No mistakes have been made when we have left the matter to the children. They know what they enjoy. When we find any attractive book, we try it in a room. If it is approved by those relentless little judges, the children, we buy a copy for each room of that grade. In the case of a very popular book we sometimes place two or more copies on the shelves.

We do not attempt to force upon the children books that are highly instructive, or which we think they ought to like. We try to supplant the trashy stuff by providing them with good, yet interesting books. Our aim is to give them a love for good literature; for when they have acquired that, we need have no fear that their education will stop when they leave school.

No child should be expected to read every book in the room library. The reason is obvious; tastes differ among the children, as among adults. Out of the fifty books, representing history, biography, adventure, fairy stories, etc., each child will no doubt find some which he will enjoy. Within the room list we let the child select for himself. Any book which is really enjoyed, which enlarges the range of thought, which makes him happier, is worth the reading, even though it has no visible purpose as a part of his school education.

ABSTRACT OF PROCEEDINGS OF THE MARYLAND STATE TEACHERS' ASSOCIATION.

HUGH W. CALDWELL, *Recording Secretary.*

The Forty-second Annual Meeting of the Maryland State Teachers' Association was held at Mt. Lake Park, Garrett County, Md., June 29 to July 2, 1909.

The meeting was a very successful one. Those on the program, with one or two exceptions, were present. The attendance of members was the largest in the history of the Association—five hundred and sixty-six membership cards were issued.

The officers were:

President—Sarah E. Richmond.
Vice-President—Robert H. Wright.
Second Vice-President—Earl B. Wood.
Corresponding Secretary—Alice McCullough.
Treasurer—John E. McCahan.
Recording Secretary—Hugh W. Caldwell.

The program was arranged by the following Executive Committee:

George Biddle, Chairman.
Howard C. Hill.
Annie E. Johnston.
E. H. Norman.
Michael R. Stone.

The appointment of a committee, consisting of Dr. Stephens, Miss Richmond and Mr. Hershner, to revise the Constitution and By-Laws was probably the most important step taken by the Association, as it will mean so much to its future history. The idea seems to be to revise the Constitution so that its business will be conducted along departmental lines. The work of this Committee will be watched with considerable interest.

No "Standing Committees" were appointed. The President felt that this was not necessary in view of the proposed changes.

A pleasing feature of the meeting was the presentation of a fine diamond scarf pin to Dr. M. Bates Stephens, State Superintendent. It was given to him by the teachers of the State in appreciation of his long and faithful work in the interests of the schools of Maryland.

Another pleasing feature of considerable interest was the conferring of the degree of Doctor of Pedagogy upon Prof. E. D. Murdaugh, of the Frostburg Normal School.

Sectional meetings of the School Commissioners, County Superintendents, High School Teachers' Association and Manual Training Teachers' Association were held in the afternoon.

As the volume of proceedings is to be mailed to each member, and as the speeches are there given verbatim, it seems unnecessary to further extend this report. I shall therefore give the minutes as read at the meetings. They give in a brief way the program as carried out.

MOUNTAIN LAKE PARK, MD., Tuesday, June 29, 1909.

The Forty-second Annual Meeting of the Maryland State Teachers' Association convened at the Auditorium at Mountain Lake Park on Tuesday, June 29, 1909, at 8.15 P. M.

The meeting opened with the singing of "America," after which the invocation was delivered by Dr. S. Simpson, of Westminster. The address of welcome was then delivered by the Honorable Clayton Purnell, of the State Board of Education. This was responded to by Dr. M. Bates Stephens, State Superintendent of Education.

The Ionic Lady Quartette then rendered "Greeting" and as an encore "Teachers May Marry."

The President's address was then delivered by Miss Sarah E. Richmond, Vice-Principal of the Maryland State Normal School, after which the Ionic Lady Quartette sang "Aunt Margery."

Dr. W. W. Davis, Manager of the Mountain Lake Park Association, was then introduced by Miss Richmond, and spoke a few words of welcome.

This was followed by a reading by Miss Ida Mason Cox, of the Maryland State Normal School.

The Association then adjourned until 9.15 Wednesday.

HUGH W. CALDWELL,

Recording Secretary.

MOUNTAIN LAKE PARK, MD., June 30, 1909, 9.15 A. M.

The morning session of the Maryland State Teachers' Association convened on the above date at 9.15 A. M. The session was opened with the singing of "Waken Lord and Ladies Gay" by the Ionic Lady Quartette, after which the minutes of the previous meeting were read and approved.

Miss Aggie J. Davis, of the Beall High School, Frostburg, then read a paper on "Opening Exercises," which was followed by an address by Dr. George D. Strayer, of the Teachers' College, Columbia University. Mr. John D. Worthington, President of the Harford County School Board, then spoke on the visit of the superintendent.

A telegram was received from the Ohio State Teachers' Association, which read as follows: "Hotel Victory, Putin Bay, Ohio, June 30, 1909. Maryland State Teachers' Association, Mountain Lake Park, Md.: Ohio State Teachers' Association send cordial greetings. Signed, S. H. Mayarry, Secretary Ohio State Teachers' Association," to which the Secretary wired the following reply: "Mr. S. H. Mayarry, Secretary of the Ohio State Teachers' Association, Hotel Victory, Putin Bay, Ohio. Maryland greatly appreciates Ohio's cordial greetings and sends greetings in return. Signed, Hugh W. Caldwell, Secretary Maryland State Teachers' Association."

The Ionic Quartette then rendered "Daisy Land," after which announcements were made by Miss Richmond, Mr. Biddle and Secretary Caldwell.

A Round Table discussion was then held upon English in the primary grades in the public schools, Miss Isabel Davidson acting as leader, with Miss Hanna A. Coale, Miss Nan L. Mildren and Mr. Dandridge Murdaugh as assistants.

Miss Richmond then announced that Dr. Goucher, of the Woman's College, of Baltimore, had consented to address the Association in the evening. The session then adjourned until eight o'clock Wednesday evening.

HUGH W. CALDWELL,
Recording Secretary.

MOUNTAIN LAKE PARK, MD.,

Wednesday, June 30, 1909, 8 P. M.

The evening session of the Maryland State Teachers' Association opened with Miss Sarah E. Richmond in the chair. After the singing of "America" the minutes of the preceding meeting were read and approved.

Mr. Biddle, Chairman of the Executive Committee, then suggested that a committee should be appointed to revise the Constitution, looking towards the organization of the Maryland State Teachers'

Association along departmental lines. He further moved that Dr. Stephens, Miss Richmond and Mr. Herschner should constitute this committee, and they were duly elected.

Dr. Goucher, of the Woman's College, of Baltimore, was then introduced by Miss Richmond. He said that he was not going to make an address, but that he would speak a few kind words of congratulation to the teachers of Maryland.

This was followed by an address by Prof. Joseph H. Saunders, fraternal delegate from and President of the Virginia State Teachers' Association. The Ionic Quartette then rendered "Sweet and Low." This was followed by an encore.

Then a recitation was given by Supt. Charles T. Wright, of Harford County—a dialect parody entitled "Barbara Frietchie," and as an encore he gave "John and Tibbie's Dispute."

Dr. T. H. Lewis, President of the Western Maryland College, was then presented by Miss Richmond, and gave a pleasing illustrated lecture on Jerusalem, the Holy City.

By motion of Mr. Biddle, a vote of thanks was extended to Dr. Lewis, for his entertaining and instructive lecture.

The meeting then adjourned until 9.15 o'clock, Thursday morning.

HUGH W. CALDWELL,

Recording Secretary.

MOUNTAIN LAKE PARK, Thursday, July 1, 1909.

The morning session of the Maryland State Teachers' Association opened with Miss Richmond presiding on Thursday morning, July 1, at 9.15 o'clock.

The opening exercises were conducted by Miss Pearl Eader, of the Frederick Female High School, consisting of the reading of a psalm, and singing of "Maryland, My Maryland."

Mr. J. Montgomery Gambrill, of the Department of History, at the Polytechnic Institute, was then introduced by the President, Miss Richmond, and delivered an address on "Education, the Old and the New." "The Skipper of St. Ives" was then given by the quartette.

This was followed by an address by Dr. George D. Strayer, of the Teachers' College, Columbia University.

The following selection was then rendered by the Ionic Quartette: "Heigh—ho, Pretty Maids."

Miss Richmond then requested Dr. M. Bates Stephens, State Superintendent of Education, and Hon. J. W. Thomas, of Cumber-

land, to come upon the stage. Mr. Thomas then presented a beautiful diamond scarf pin to Dr. Stephens, in behalf of the teachers of Maryland, stating that he should receive it as a slight token of the esteem and warm appreciation in which he was held. Dr. Stephens accepted the gift as an expression of goodness and kindness upon the part of the teachers.

Then Dr. W. H. Wilcox, of the State Normal School, read a paper on English in the public schools in the intermediate grades, discussing the "The Teacher's Preparation." Mrs. Anna M. Luman, of Cumberland High School, followed with a paper on "Composition Work and its Methods." Mr. Norman W. Cameron being absent, his paper was read by Miss Anna E. Johnston, of Ellicott City.

The meeting then adjourned until Thursday night, 8 P. M.

HUGH W. CALDWELL,

Recording Secretary.

MOUNTAIN LAKE PARK, MD., July 1, 1909, 8 P. M.

The evening session of the Maryland State Teachers' Association opened with Miss Richmond in the chair, Thursday evening, July 1, at 8 P. M., with the singing of "Maryland, my Maryland."

The minutes of the preceding meeting were read and approved, after which announcements were made by Dr. W. W. Davis, of the Mountain Lake Park Association.

This was followed by an address by Mr. Joseph Rosier, Superintendent of the Public Schools of Fairmont, W. Va.

The Ionic Lady Quartette then sang "Seeing Things at Night," and gave as an encore "Uncle Dan."

Following this, the Hon. W. M. Warburton, of the Elkton Bar, delivered a pleasing oration.

This was followed by a recitation by Superintendent Charles T. Wright, entitled "How Rubenstein Played." Then Miss Ernestine Chambers, of the Ionic Quartette, recited "Mrs. Newly Wed's First Visit to the Butcher."

Miss Richmond then declared the Association adjourned until 9.15 A. M. Friday morning.

HUGH W. CALDWELL,

Recording Secretary.

MOUNTAIN LAKE PARK, MD., July 2, 1909, 9.15 A. M.

The morning session of the Maryland State Teachers' Association opened on Friday morning at 9.15 A. M., with Miss Richmond in the chair, and with an address by Prof. John T. White, County Superintendent of Frederick County, on "Opening Exercises."

The Ionic Quartette then rendered a selection, and were encored.

Miss Richmond, in the absence of the first appointed Auditing Committee, appointed Mr. Hill, Mr. Smith, and Mr. White to audit the accounts of Mr. McCahan.

Mr. Sidney S. Handy then opened the discussion on English in the public schools, high school grades, presenting a paper on "Purpose and Aim of Presentation." He was followed by Miss Maude Brown, of Baltimore, on "Method in Presenting the English Classics;" Mr. U. G. Palmer, of Oakland, on "The Use and Abuse of English Grammar;" Miss Ida P. Stabler, of Sandy Springs High School, on "Development of Power in the Use and Appropriation of Good English;" and Miss Leila N. McCoy, of Cecilton, on "The Use of the School Library in Teaching English."

The report of the Auditing Committee was now read by the Secretary, which showed the total receipts to be \$840.54, and the expenditures, \$483.31, leaving a balance on hand of \$357.23. The report was signed by Howard C. Hill, Arthur F. Smith, and John T. White as being correct. On motion duly moved and seconded the report was accepted.

Announcements were made by the Recording Secretary stating that 566 members had been enrolled—the largest number ever enrolled in the history of the Association.

Mr. Lamar, Fraternal Delegate to the Virginia State Teachers' Association, then presented his report.

The Reading Circle Report, submitted by Prof. H. E. Austin, Secretary, was then read by Secretary Caldwell.

Miss Richmond re-appointed Mr. J. Montgomery Gambrill, of the Polytechnic Institute of Baltimore, to fill one vacancy on the Board, leaving the appointment of the other to the incoming President.

Dr. Stephens then moved that the degree of Doctor of Pedagogy be conferred upon Prof. E. D. Murdaugh, of the Frostburg Normal School. This motion was seconded by Mr. William S. Powell, of the State Board of Education, and unanimously carried.

Miss Richmond then said that she was ready to receive nominations for President of the Association.

Mr. Caldwell nominated Mr. Biddle, and this nomination was seconded by Mr. Galbreath, of Darlington. Mr. Edward A. Browning was elected First Vice-President, Mr. George W. Joy, of St. Mary's County, Second Vice-President. Mr. Hugh W. Caldwell was chosen Recording Secretary by acclamation. Miss Bernice Halley, of Charles County, was elected Corresponding Secretary. Dr. R. Berryman was elected Treasurer; Mr. John E. McCahan declining to again accept the honor.

On motion of Mr. Arthur F. Smith, of Lonaconing, a rising vote of thanks was extended to Superintendent McCahan for his long and able service.

Mr. Howard C. Hill, of Cumberland, was nominated for Chairman of the Executive Committee by Edward A. Browning, and was unanimously elected.

Dr. Stephens nominated the other four members of the Executive Committee, as follows:

Thomas C. Bruff, of Baltimore City; Miss Ida P. Stabler, of Montgomery County; Miss Mary Holmes, of Baltimore City, and Nicholas Orem, of Talbot County, and they were duly elected.

Miss Richmond appointed Mr. White and Mr. Smith to escort the new President to the platform, and after appropriate remarks by Miss Richmond and Mr. Biddle the meeting was declared adjourned *sine die*.

HUGH W. CALDWELL,
Recording Secretary.

REPORT OF THE TREASURER.

JOHN E. McCAHAN, *Treasurer.*

RESOLUTIONS.

Committee on Resolutions begs leave to submit the following:

Resolved, That we do hereby extend the thanks of this Association to the officers and executive committee for the able manner in which they have conducted the affairs of the Association during the past year, and especially for the excellent work accomplished at this meeting.

That we hereby express our thanks and appreciation for the able addresses delivered by Hon. Clayton Purnell, Dr. M. Bates Stephens, Miss Sarah E. Richmond, Dr. George D. Strayer, Mr. John D. Worthington, Dr. T. H. Lewis, Mr. J. M. Gambrill, Mr. Joseph Rosier, Hon. W. E. Warburton. We also desire to thank all those who have contributed to make the program rendered at this meeting one of general excellence.

Resolved, That the Association does hereby extend its sincere thanks to Prof. J. H. Saunders, Fraternal Delegate from the Teachers' Association of the State of Virginia, for his most interesting, scholarly and helpful address.

That we acknowledge our indebtedness to Miss Grace I. Gill for her services in reporting this meeting; to the Ionic Quartette of Baltimore for its excellent music; to the Remington, Oliver and Smith Premier Typewriting Companies for services rendered to members of the Association, and to Mr. W. W. Dunington for the use of his piano. To Mr. W. W. Davis for the courtesies extended by him on the part of the Mountain Lake Park Association.

Resolved, That the plan adopted in some counties of the State to supplement the work of supervision by the appointment of one or more supervisors has the endorsement of this body and that the legislature so amend the law as to give the county school boards more power in this direction.

Resolved, That a standard be fixed by law defining the required essentials for an approved high school. There should be a definite guide in this matter for our State and county school officials to follow.

That we commend the construction work done by the State Normal School, as shown by their exhibits and that we extend our thanks to the Legislative Committee for its services, and urge upon it the necessity for consistent work at the meeting of the next General Assembly.

Resolved, By the Maryland State Teachers' Association, that in the death of Mr. Rufus K. Wood, a member of the State Board of Education, the cause of public school education in the State, has sustained the loss of one of its most ardent, zealous and efficient supporters, and this Association one of its most useful members.

EARLE B. WOOD,
T. C. BRUFF.

HUGH W. CALDWELL,

Recording Secretary.

CHESAPEAKE CITY, August 12, 1909.

THE GROWTH OF THE TEACHERS' INSTITUTE.

BY THE STATE SUPERINTENDENT.

HISTORY AND AIM.

No adjunct of our State School System has given more evidence of development than has the County Institute, organized for the professional improvement of the teachers. The Institute idea is co-extensive with that of public education. The late Joseph M. Cushing was chairman of the Committee on Education in the Constitutional Convention of 1864 and submitted the resolution which authorized a general school system for Maryland. Agreeable to the suggestion of this Committee, Governor Bradford appointed Rev. Libertus Van Bokkelen the first State Superintendent of Education, and he was charged with the task of devising a school system in keeping with the importance of the interests it was meant to foster and adjustable to the conditions then obtaining in the State.

As a part of the machinery for the betterment of the teaching profession, he recommended that a Teachers' Institute, to last a week, be held in each county annually; and this recommendation became, and has since remained, a part of our State School Law.

An experience of nearly a half century demonstrates the wisdom in providing this factor. From the early days of public education to the present, there has been an honest desire to see all our schools in the control of those who enjoyed the advantages of special education and training for a work which involves the development of intellect, the molding of character, and the preparation to meet honestly and efficiently the responsibilities of citizenship, on the part of those whom they instruct.

The law, from the very start, has been exacting in its requirements of scholarly attainments. This is as it should be, for we cannot teach what we do not know. As a stream cannot rise higher than its source, it is fundamental that a teacher must know as much (and should know much more) as the pupils are expected to learn. The necessity for good intellectual qualifications is even more urgent now than formerly, because present day needs make greater demands on the fund of knowledge of the individual than ever before. But Dr. Van Bokkelen realized that it was one thing to know, but quite a different proposition to be able to impart

knowledge to others; that teaching is an art, and those who practice it must be skilled in the principles and methods which belong to it.

The painter may have all the appliances and paraphernalia of the art, but with only these, he is a mere mechanic or artisan. What is necessary to transform this mechanic into an artist? The answer must be "high ideals, a divine sense of beauty, and a fair conception of the possibilities of art." Dominated by such a spirit the artist becomes a creator. A similar spirit must be infused into the scholar before he can become a real teacher. Unless he or she have a fair idea of the sacredness and nobility of the high office of the teacher, and a conception of what is possible through the teaching art, failure and disappointment must be the inevitable results.

The Institute provision was made in deference to the fact that a vast army of untrained and inexperienced people would assume the duties of public school teaching, and it became necessary to organize for their professional benefit. There has been no time, since the inauguration of the system probably, when as many as one-half of the new recruits had received Normal School training for the work. No other work of like importance has been intrusted to unskilled hands, and the conclusion is easily reached that this wholesale disregard of one of the fundamental requirements for successful teaching retarded the progress of public education in our State more than anything else. Dr. Van Bokkelen's idea concerning this need was entirely correct, but the actual demonstration of its merit was long deferred. For many years, the County school officials, in many cases, did not obey the law touching this question and possible good results were lost to the teaching corps of those counties. No adequate provision had been made to organize the County Institutes prior to 1898. The principal of the Maryland State Normal School was, *ex-officio*, State Superintendent and this work was delegated to the person who filled this dual position. With his other varied duties, it was a physical impossibility for him to attend and conduct an institute in each county annually; so from 1865 to 1898 the holding of institutes was spasmodic and the work of these gatherings lacked system or organization. Public sentiment had not been educated as to its value and, as a consequence, the institute was long regarded as "a teachers' frolic." Teachers themselves did not fully grasp its opportunities, and would attend its sessions listless if not indifferent. Professor Newell, when at the helm, was always helpful and inspiring. Our older teachers remember well his masterful style in dealing with all

phases of school management and various pedagogical problems, and the readiness with which he entered into discussions. He possessed a sense of wit and repartee which usually "disarmed his opponent and left nothing for him but unconditional surrender." He gave much encouragement to this factor of school development, and it gained at least a good foothold under his administration.

STAGES OF GROWTH.

The law was mandatory, but it was not until 1898 that institutes were generally held throughout the State. The General Assembly of that year authorized the State Board of Education to appoint an Institute Director, whose duty it was to organize and conduct a teachers' institute in each county every year. Dr. Samuel E. Forman was named to fill the position, and he at once entered upon the work of organizing in a systematic way this "temporary Normal School." During the two years he filled the office, he was successful in correcting many popular errors concerning its true purpose, and the teachers generally assumed a good attitude toward its work. Since then the holding of institutes has been the rule and not the exception.

To watch this agency, while passing through the different stages of development, has been and still is an interesting study. Professor Newell believed that the institute should be a close adjunct of the State Normal School, and that practical teachers—members of the Normal School Faculty—should furnish the major part of the instruction. By following this plan, he could see in the Normal School a centre whose influence would permeate every schoolroom in the State, and a force which would unify general school interests. Graduates of the school were going out constantly into the various counties, and when these instructors took up the task of the institute sessions, there was present a nucleus of teachers ready to greet their "old teachers" with affectionate regard, and to drink again from their fountain of knowledge.

The measure of success following the plan is difficult to determine. We must bear in mind during that period, that the institute was an occasional affair, and that the study of pedagogics was not nearly so intensive as it is now. Comparatively few teachers had been trained for the work, and they lacked both the spirit and the interest which possess our present teaching force. In other words, they went into such meetings not hungry to acquire a better grasp of teaching, but rather for entertainment, if not amusement.

The program was changed by County school officials, possibly in order that the work of the institute might be more popular with both teacher and visitor. Popular lectures came on the scene and made their contribution to the cause. It would be misleading to state that their sessions were not, in one sense, helpful; for they popularized the exercises so far as the public is concerned, and we have had but little objection from that source since. It means much to any department of our public school system to have public sentiment back of it, and it appears that the work of the professional institute lecturer assisted largely in doing that thing. But after all the institute is for the teachers, and unless its work improves their efficiency, and raises them to a higher plane of excellence, it should be abolished on the ground that it is practically a useless expenditure of public school funds.

Teachers, like other people, must have entertainment and amusement, but they do not seriously expect this to be furnished them at the expense of the school fund. Quite a number of lecturers, who seek institute engagements, have not been actively identified with schoolroom work for years, and are not in touch with the problems which come up during the daily routine of school work. A few of them possibly never taught, and are wholly ignorant of the teachers' needs. They have enjoyed good academic advantages, have some acquaintance with the history of speculative philosophy, know something of the phraseology of Hegel, Kant, Herbart and Butler, and are gifted with the power of eloquence; but they are not institute *instructors*. They are paid lecturers, and they are shrewd enough to know that the majority of teachers enjoy entertainment more than scientific instruction.

The day for the entertainer in the sessions of the institute is passing, and he is now found, if found at all, on the platform for the evening session, which has no logical connection with the definite work of the institute. It may be well to say here, that one or two evening entertainments, where teachers and patrons may mingle and find social enjoyment, can with profit be arranged by the County Superintendent, in connection with institute work.

DEFINITE WORK.

It cannot be reiterated too often that teachers get out of an institute what they put into it—if they bring nothing with them, they take nothing or but little away. Preparation goes before presentation. Our County Superintendents have taken high ground of late

on this question and through their experimental work many difficulties have been overcome, until now institute work seems to be getting on a firm and logical basis. On December 4, 1901, the County Superintendents held a meeting, and it was decided to prepare each year an institute manual, in which there should be outlined definite work in at least three subjects, viz: Pedagogy (based on the pedagogical text of the Reading Circle Course), one school study, and one school exercise. M. Bates Stephens, Alexander Chaplain, Albert S. Cook, Thomas C. Galbreath and William S. Crouse were named as members of the committee to prepare this publication. For six years, such a manual was furnished the teachers and the plan had the effect to stimulate interest in the particular subjects, and to cause the teachers to make special preparation for institute work.

It developed the Round Table, or conference feature, where the teachers themselves did much of the work. Whatever plan will bring teachers "to their feet" in a discussion of a question, is helpful to all who are thereby caused to give expression to their ideas. The Round Table discussion served a good purpose, for it lowered the teachers' estimates of the value of cut and dried lectures full of generalities and abounding in meaningless phrases.

There was a time when our County School Boards felt too poor to employ paid instructors, and it became necessary for the teachers themselves to take the program assignments. In many instances the teacher's part was entirely creditable, and in every case, perhaps, it was at least beneficial to those who did the work. It not infrequently happens that an assignment of work to a teacher will have the effect to start investigation and inquiry which will become the dawn of a better teaching era. It often means an introduction to research work which amounts to a new birth and a richer and fuller professional life. The opportunity to discuss educational theory and to exchange views on the demonstration of work should be present some part of the day in every institute. It is at such times that individual notions are crystallized into general conclusions and vital points are clinched.

While the Round Table does not, to any extent, retain its name, the idea still lives in the sections into which nearly all of our institutes are now divided. The group plan, which separates the teachers of different grade work, gives the instructor opportunity to get into closer touch with the teacher, and on the other hand the teacher feels freer to ask for information. The group idea is an excellent one and is doing much to reach the special needs of each

teacher. The plan involves a larger expenditure for instruction, but our School Commissioners have become more generous in their support of the institute and there is but little embarrassment in this regard.

TIME LIMIT.

Among the County School Superintendents there is practical agreement as regards the character of work to be done, but a difference of opinion as to the length of time the institute shall occupy. Prior to 1906, the law limited each institute to five days, but the Legislature of that year modified it to read—"to continue not less than five days."

Four years ago, Somerset, Wicomico and Worcester Counties entered into a joint arrangement to hold at Ocean City an institute to continue two weeks, and this plan has been followed to the present. Baltimore, Talbot and Caroline have also held two weeks' institutes. The motive in every case, in taking more than one week, has been a praiseworthy one, for it had for its object the raising of the teaching standard. It is also to be assumed that the framers of the original law felt that not more than one week should be taken from the school year for institute purposes. With the increasing number of Normal graduates, the rapid multiplication of summer schools, the growing interest in the State Reading Circle Course, and a wider dissemination of educational magazines, it would seem that the necessity for the institute is not as great as when provision was made for it some forty-five years ago. Then the time was limited to five days; and if that was a wise arrangement, then it would seem unwise now, with improved conditions in the sphere of teaching and with noticeable increase in the means for professional improvement, to lengthen the time beyond five days.

No one can doubt the desirability of extending the time beyond five days, when we think of the larger gain the teacher will make by the additional opportunity; but the schools are closed two or more weeks instead of one, and it is a debatable question whether the gain to the teacher of an additional week in the institute will make her enough more capable in her instruction to compensate in efficiency the week or more time the pupils are out of school.

The amount of money paid institute instructors is a small part of the actual cost of the institute, when we remember that the salary schedule of the entire county is in full force while the institute is in session. It would hardly be fair to the teacher, where the institute continues longer than one week, to ask that he or she expect

salary for the last week only; and it works a financial hardship on the teacher even when salary is allowed, as their expenses while attending such meetings are larger than when teaching.

The custom seems to be pretty general throughout the country to dedicate *one week* of the school year for this purpose, and make the sessions practical and the work as intensive as practicable. Allegany County, during the latter half of August and the first week of September, conducted a three weeks' summer school, and for those who attended the third week, it was counted as institute and salaries paid for that week. This plan forestalls any criticism which could arise against the economy of an institute lasting longer than one week. Similar arrangement was made in Garrett County.

The summer school is now a live factor in elevating the teaching profession, and its important demands separate treatment in some subsequent report. Such a school, however, succeeds best when conducted in connection with and under the name of a well known university for reasons which are obvious and need not be stated. If the authorities of the Johns Hopkins University can see their way to provide such a school, so far as our teachers are concerned, it will best solve the problem in our State. Outside of Baltimore, no other place or town would seem to possess the necessary facilities and accommodations for the large number of teachers we hope would attend. It is hardly reasonable to expect the State, as such, to undertake the project.

RECOMMENDATIONS.

1. If convenient, the institute should be held at the beginning of the school year. It gives the County Superintendent an opportunity to meet his teachers and discuss work and plans for the year. New ideas gained by the teachers from the instruction of the meeting may be utilized because school work has not been begun. When the lines of work have been mapped out and school plans definitely inaugurated, it means confusion to change them. There is no time that the teacher needs the inspiration which should come from attending an institute so much as at the beginning of the school year.

2. A large majority of the counties devote but one week to the institute and under all the circumstances this limit seems wise. The grade requirements are heavy and it seems advisable where the school year is nine months, to take but one week of the time for the institute. Teachers have the privilege of doing much professional reading and study through the agency of the Teachers' Reading

Circle and this should form the basis of work done in association meetings, or local institutes held at various times during the school year. In our zeal to raise the standard of school instruction, we must not forget that school teachers are human beings with physical limitations and that their compensation is too meager to warrant us in expecting them to endure patiently the financial burdens which extra preparation often involves. Our sense of obligation to the pupil should not make us forget what is fair, under all the circumstances, to expect of the teacher.

3. A part of the instruction in every institute should be given by instructors of our own State Normal Schools. Educational conditions of the counties are understood by, and the particular needs of teachers appreciated by them. All of them should be experts in their departments and they can do much to encourage essential uniformity in methods of teaching. If their work fall below a fair expectation, the institute will prove an excellent place to make the discovery.

The institute program should provide for the presentation of general principles of education and philosophy of teaching; demonstration lessons, and conferences, where teachers and instructors may engage in a general discussion of what took place during those periods.

4. Where feasible, two or more small counties should join in holding their institutes. In the first place, it is more economical and, secondly, there are benefits both social and professional in meeting teachers of another county and having an interchange of views. If it is possible for a teacher to grow narrow and get in ruts when not acquainted with other schools, why will not the county school system meet the same fate unless there is knowledge of what is going on in other counties and other sections of the State? For this reason the County Superintendent ought, if he can, attend at least the two institutes to which he is assigned, annually, as a visiting superintendent.

RECAPITULATION OF SOME USES OF THE INSTITUTE.

1. To make teachers to strengthen their scholarship. It is not intended that a subject is to be given involving its foundation and its details. But it is within the province of every institute to make knowledge of the school subject richer and fuller.

2. To assist teachers in the mastery of the most salient principles of the art of teaching. These principles involve a study of educa-

tional psychology, school organization, and management, and methods of teaching. Educational psychology sustains a similar relation to the teaching art, and is as much its legal foundation as physiology and anatomy are the natural foundation stones upon which the art and science of medicine rest.

3. To enable teachers to keep in touch with advanced educational thought. Nothing conduces to narrowness and stagnation more than to be shut up in a schoolroom with no chance to look beyond its environment. As a rule, the dead members of the profession are those teachers who are deprived of opportunities which such factors as the institute present, or who feel they do not need their influence. While the smaller part of the work, that which is more technical or abstract, is arranged for those teachers who have been professionally trained (such teachers usually being in the minority), it does not follow that they do not need to attend. The institute has its message for such teachers and they must attend, if for no other reason than to prevent stagnation. But the larger number comes in the class of non-professionals, if the professionals are those who have had special Normal School training and have entered the sphere of teaching with an idea of making it their permanent work. For this larger or non-professional class more time must be assigned, and they will need proportionately more devices and definite plans and a larger amount of concrete instruction or demonstration lessons than the first or smaller class.

4. To encourage sympathetic social relations, and get into the right spirit for the work. Without an opportunity to compare experiences, it is easy for a teacher to feel that her difficulties are greater to overcome than obtain elsewhere. When she listens to a recital of others' "trials and tribulations" she feels better knowing that she is not alone, and that hundreds and thousands are meeting with similar experiences or in other words that her difficulties are a natural part of the profession. Hard tasks are always performed with better grace when it is realized that a great army of comrades are doing the same work. Instructors, whose hearts are in their work, and who represent the best and freshest in education, who appreciate and magnify the dignity and worth and higher calling of the teacher, give more breadth to the horizon which makes possible a better outlook for the teacher.

The following list is taken from the Teachers' Year Book, 1909-1910:

LIST OF INSTITUTE DATES FOR COUNTIES OF MARYLAND.

SCHOOL YEAR 1909-1910.

*Prepared and Issued by the State Superintendent of
Public Education.*

County.	Date.	Visiting Superintendents.	Normal School Instructors.
Allegany	Aug. 23— Sept. 10	Albert S. Cook Charles T. Wright J. Briscoe Bunting	No assignment
Anne Arundel*	Sept. 6-10	Michael R. Stone A. C. Willison	W. Franklin Jones
Baltimore	Sept. 13-17	William P. Beckwith A. C. Willison	No assignment
Calvert	Oct. 4-8	Frederick Sasscer	Minnie Davis
Caroline†	Aug. 30— Sept. 3	Byron J. Grimes Milton Melvin	W. Franklin Jones
Carroll	Sept. 6-10	George Biddle George W. Joy	Hannah A. Coale
Cecil	Oct. 25-29	Edgar W. McMaster John P. Fockler	W. Franklin Jones Ella V. Ricker
Charles*	Sept. 6-10	J. Briscoe Bunting William P. Beckwith	W. H. Wilcox
Dorchester	Dec. 20-23	Earle B. Wood Frederick Sasscer	W. Franklin Jones
Frederick	Jan. 3-7	Earle B. Wood Edgar W. McMaster	No assignment
Garrett	Sept. 6-10	Charles T. Wright George Biddle	Minnie Davis Sarah E. Richmond
Harford	Aug. 30— Sept. 3	S. Simpson John T. White	Ida Mason Cox Robert L. Haslup
Howard	Oct. 18-22	John T. White Michael R. Stone	Inez Johnson W. H. Wilcox
Kent	Sept. 6-10	William J. Holloway John P. Fockler	W. Franklin Jones Herbert E. Austin
Montgomery	Sept. 6-10	William J. Holloway George W. Joy	Mary E. Ford
Prince George*	Sept. 6-10	John T. Hershner William H. Dashiell	No assignment
Queen Anne	Oct. 11-15	Edward M. Noble Albert S. Cook	Mary H. Scarborough
St. Mary's*	Sept. 6-10	Nicholas Orem Samuel Garner	Robert H. Gault W. H. Wilcox
Somerset‡	Aug. 23— Sept. 3	Nicholas Orem S. Simpson	Lillian L. Thorpe
Talbot†	Aug. 30— Sept. 3	Edward M. Noble Milton Melvin	Inez Johnson
Washington	Jan. 3-7	William H. Dashiell Edward A. Browning	No assignment
Wicomico‡	Aug. 23— Sept. 3	Woodland C. Phillips Byron J. Grimes	W. Franklin Jones
Worcester‡	Aug. 23— Sept. 3	Edward A. Browning	Florence Snyder
			H. E. Austin

*Anne Arundel, Prince George, Charles, and St. Mary's counties will hold a joint institute in Annapolis, September 6-10.

†Caroline and Talbot counties will meet jointly in an institute to be held at Denton, August 30 to September 3.

‡Somerset, Wicomico and Worcester counties will meet jointly at Ocean City for a two-weeks institute, August 23 to September 3.

REPORT OF THE PROCEEDINGS OF THE ASSOCIATION OF SCHOOL COMMISSIONERS AND COUNTY SUPERINTENDENTS OF MARYLAND.

DECEMBER 2ND AND 3RD, 1908.

MARYLAND STATE NORMAL SCHOOL.

The annual meeting of the Association of School Commissioners and Superintendents convened in the library of the State Normal School at 10.30 o'clock. President A. C. Willison, of Allegany County, presided. Mr. Beckwith being absent, the president called upon B. J. Grimes to act as secretary.

Superintendent Holloway, of Wicomico County, was the leader of an important discussion on the professional side of the Superintendent's duties. School Commissioner M. B. Nichols, of Talbot County, read a paper on the heating and ventilating of school buildings, and at the close of the discussion on this topic, State Superintendent Stephens promised the Association to prepare and distribute a pamphlet of practical suggestions on the subject of ventilation. President James W. Thomas, of the Allegany County School Board, presented the following resolution: "*Resolved*, that the president of this Association appoint a committee of three to look into the matter of procuring for use in the public schools of Maryland an accurate history of the United States, said committee to report the result of its proceedings to this Association at its next meeting." The president named on this committee, Commissioner James W. Thomas, Dr. M. Bates Stephens and Earle B. Wood. Great interest was shown by the Association in the question of reclassifying teachers' certificates, including life certificates and normal school diplomas. A vigorous address on this subject was made by President John D. Worthington, of Harford County School Board. Mr. Rufus K. Wood, of the State Board of Education, read a very suggestive paper on industrial education for rural communities. Superintendent White, Chairman of the Committee on Resolutions, submitted the following:

Mr. President and Members of the Association of School Commissioners and Superintendents of Maryland:

Your Committee on Resolutions begs leave to submit the following:

Resolved, That we heartily commend to this Association our worthy State Superintendent, Dr. M. Bates Stephens, for his earnest and untiring efforts for the educational interests of our State, and hope that his health may so improve that he may be enabled to continue the good work in which he is so earnestly engaged.

Resolved, That the thanks of this Association be extended to the Chairman and Secretary, and to all members who have contributed to the interest and success of our meetings.

Resolved, That we heartily endorse the words of Commissioner Thomas in reference to a true statement of historical facts for the study and consideration of our pupils, and that we do all in our power to attain this desired end.

Resolved, That we express our thanks to Dr. Ward, Principal of the Normal School, and his corps of teachers, for the many courtesies shown us, and for making our meetings so pleasant and so beneficial.

Resolved, That the increasing demands on public school instruction make necessary such a readjustment of our school machinery as will make possible the highest results in the school room. Closer and more expert observation and supervision of the teacher's work must be provided by the county school authorities in order to bring about such helpful co-operation as will make teaching effective in all grade work. We commend the efforts now being made to provide capable supervisors to supplement the professional work of the County Superintendent.

Resolved, That we are convinced that the great Johns Hopkins University, an institution of the state of which we are all proud and the success of which we all desire can do very much toward placing the teaching force of our public schools on a higher plane of excellence and efficiency. We hereby express our gratification that a department of education has recently been provided but the present requirement that a college B. A. degree is necessary to make a person eligible for the courses will measurably defeat the object for which this organization had hoped would be regarded, viz: a place where high school teachers might be prepared to better teach those subjects belonging to the province of secondary education.

Resolved, That we strongly recommend to the authorities of the Johns Hopkins University the consideration of opening a summer school with courses open to teachers of our public schools and thus provide a place near at home where Maryland teachers may get the benefits of summer school instruction at a minimum cost and within easy reach.

Resolved, That we congratulate the university on the appointment of Dr. Buchner to the chair of Education and we pledge him our hearty co-operation in all his efforts to solve the hard problem which has been assigned him.

Resolved, That we urge all school officials and teachers to renewed efforts to build up a school library of books suitably selected so as to meet the interests and capacities of the pupils of the school. We stimulate in the pupil a desire for reading matter and well selected books should be available that this desire may be encouraged and fostered. A library of well selected books is an excellent working tool in the child's education.

Respectfully submitted,

JOHN T. WHITE,
GEO. W. JOY,
SAMUEL GARNER,

Committee.

The following officers were elected for the ensuing year: President, Edmund P. Cohill, of the Washington County School Board; First Vice-President, Superintendent E. W. McMaster, of Worcester County; Second Vice-President, John F. Duke, of the St. Mary's County School Board; Secretary, Superintendent B. J. Grimes, of Queen Anne's County; Executive Committee, Edmund P. Cohill, Rufus K. Wood and E. A. Browning.

On motion, the meeting adjourned.

B. J. GRIMES,

Secretary pro tem.

COUNTY SUPERINTENDENTS' SECTION.

BALTIMORE, MD., December 2, 1908.

The meeting was called to order at 10.30 A. M. by State Superintendent Stephens, who, after making some introductory remarks, called Superintendent Dashiell, of Somerset County, to the chair. Superintendent Sasscer, of Prince George's County, was asked to serve as secretary.

There was a large attendance, and the following subjects were discussed:

1. Defects in Teachers' salary Law, passed in 1908 and how best to remedy them.
2. "The school and the library."
3. How and by whom should normal school diplomas and life certificates be classified?
4. What should be the character of the County Superintendent's official visit?
5. Best plan for promotion of pupils.
6. Necessary steps to secure better school supervision.

The session adjourned at 1.30 P. M., and those present were invited to luncheon as the guests of Dr. Stephens.

SPECIAL MEETING OF THE COUNTY SUPERINTENDENTS.

BALTIMORE, MD., August 29, 1908.

A special meeting of the County Superintendents was held at the Hotel Rennert, Baltimore, on Saturday, August 29, 1908, convened by the State Superintendent for the purpose of considering the Commercial Course, about to be established in the high schools. In the absence of Mr. Dashiell, President of the Association, Dr.

Stephens was called to the chair, and Frederick Sasscer was appointed secretary *pro tem*.

The topics suggested for consideration were as follows:

1. The purchase of typewriters only which have the universal keyboard.
2. A system of bookkeeping which will be practically uniform.
3. What business branches should be introduced below the tenth year grade, and where?
4. What modifications or changes should be made in the Commercial Course as adopted by the State Board of Education a year ago and printed in the Teachers' Year-Book for school year 1907-08?
5. Best plan to insure essential uniformity in stenography?
6. Should teachers of the commercial departments form themselves into an organization separate from the High School Teachers' Association, or meet jointly with said Association?
7. Is the appropriation for business education a sacred fund for the one purpose, or may it be used for other purposes?
8. How must the qualifications of the teachers of the commercial departments be determined, and how shall inspections of their work be made?
9. Is it wise to require the commercial teacher to engage in any teaching apart from the business course?

These subjects were discussed in order by the superintendents present.

On motion of Mr. Wright it was recommended that the major purchase of typewriters be of the universal keyboard.

On motion of Mr. Cooke it was resolved that no recommendation be made as to a uniform system of bookkeeping.

On motion of Mr. Cooke it was also resolved that the schedule in Year Book, as a tentative course, be taken as the basis for the coming year's work.

On motion of Mr. Willison, it was declared to be the sense of the conference that a foundation should be laid in the 8th and 9th grades for the Commercial Course.

Governor Crothers attended the conference, and made a sympathetic and practical address. Dr. Buchner, of the Department of Education in Johns Hopkins University, was also introduced by the chairman, and spoke in a pleasing and forcible manner.

The meeting was adjourned, subject to the call of the president.

FREDERICK SASSCER,

Secretary pro tem.

THE TEACHERS' PENSION LAW.

As Revised by Act of 1908.

(Chapter 605).

SECTION 58. Whenever any person in this State has taught in any of the Public or Normal Schools thereof twenty-five years, and has reached the age of sixty years, and his or her record as such teacher has been without reproach, and by reason of physical or mental disability or infirmity is unable to teach longer, and who, moreover, is without the means of comfortable support, the said teacher may lay his or her case before the State Board of Education, supported in all cases by the recommendation of the Board of County School Commissioners of the county in which said teacher has last taught, and the said Board shall proceed to consider the same, and if the facts are found as above stated, the said teacher shall be placed on a list, a record of which shall be kept by the said Board, to be known as the Teachers' "Retired List," shall be on or before the first day of October of each and every year, certified to by said Board to the Comptroller of the Treasury of the State; and every person so placed upon said retired list shall be entitled to receive a pension from the State of two hundred dollars per annum, to be paid quarterly by the Treasurer of this State, upon the warrant of the Comptroller, so long as the said pensioner is without other means of comfortable support, provided that after October 1, 1907, any person whose name is placed on said list for the first time shall receive pay from the day of approval of application by the State Board of Education. That the sum of twenty-five thousand dollars per annum, or so much thereof as may be necessary, is hereby appropriated out of any moneys in the Treasury not otherwise appropriated to carry into effect the provisions of this Act.

TEACHERS' RETIRED LIST, AS PROVIDED BY ABOVE LAW.

In Effect October 1, 1909.

John F. Neff, Cumberland, Allegany County.
Mary P. Chew, West River, Anne Arundel County.
Julla Watkins, Rutland, Anne Arundel County.
Horace Tell, Drury, Anne Arundel County.
Lotta R. Jacobs, Armlger, Anne Arundel County.
Rebecca J. Camden, Annapolis, Anne Arundel County.

Sallie H. Gamble, 1906 Market St., Wilmington, Del. (Baltimore County).
Sarah E. Welsh, Mt. Washington, Baltimore County.
Mattie L. Gibbs, Home of the Aged, M. E. Church, Fulton Ave., Baltimore City.
Susie V. Fleury, 1405 Druid Hill Ave., Baltimore City.
Sarah V. Mettee, 704 N. Broadway, Baltimore City.
Juliet LeGrand, 214 Gilmore St., Baltimore City.
Elizabeth D. Cathcart, 2412 N. Calvert St., Baltimore City.
Annie E. Wardenburg, 1618 Gough St., Baltimore City.
Marian V. Price, 819 N. Gilmore St., Baltimore City.
Mary C. Geddes, 1215 W. Baltimore St., Baltimore City.
Dorothy C. Short, Roland Park, Baltimore City.
Ella Faulac, 1522 N. Caroline St., Baltimore City.
Sara S. Rice, 2004 Mt. Royal Terrace, Baltimore City.
Maria L. Bullock, Franklin Square Hospital, Baltimore City.
Annie M. Doll, Station D, Baltimore City.
Rosalia Barrett, Ellicott City (Baltimore County).
Margaret M. Mullin, 1203 McCulloh St., Baltimore City.
M. Joanna Crown, Berryville, Virginia.
John H. Griffin, Bethlehem, Caroline County.
Henry C. Wilt, Taneytown, Carroll County.
William L. Fleagle, Frizzelburg, Carroll County.
Jacob P. Baltozer, Manchester, Carroll County.
Alfred W. Buckingham, Westminster, Carroll County.
G. W. J. Everhart, Manchester, Carroll County.
James S. Little, Frizzelburg, Cecil County.
Lillie M. Hayes, Cowentown, Cecil County.
John W. Posey, Wicomico, Charles County.
J. R. R. McCarthy, McConchie, Charles County.
W. E. W. Rowe, Indian Head, Charles County.
W. H. P. Bryan, Madison, Dorchester County.
Charles A. LeCompte, Cambridge, Dorchester County.
John W. Collins, Galestown, Dorchester County.
S. M. Donoho, Cambridge, Dorchester County.
Thomas B. Chamberlain, East New Market, Dorchester County.
Elizabeth H. Riggs, Ijamsville, Frederick County.
Annie E. Duphorne, Emmitsburg, Frederick County.
J. Lewis Lutz, Middletown, Frederick County.
Samuel J. Tammany, Havre de Grace, Harford County.
Mary E. Norris, Singer, Harford County.
Eliza E. Baird, 1125 Bolton St., Baltimore City (Harford County).
Mary A. Gibson, 1317 Eighth St., N. W., Washington, D. C. (Harford County).
J. T. R. R. Carroll, Guilford, Howard County.
Alice M. Dawley, 2310 Wells St., Milwaukee, Wis. (Howard County).
Samuel W. Wallis, Worton, Kent County.
Helen Power, Millington, Kent County.
William H. Pace, Washington Grove, Montgomery County.
George A. Barton, Stevensville, Queen Anne County.
John H. Beauchamp, Upper Fairmont, Somerset County.
John H. Zuhlicke, Crisfield, Somerset County.
John F. Duke, Leonardtown, St. Mary's County.
Sallie A. Wollaston, St. Michaels, Talbot County.
Daniel H. Garver, Hagerstown, Washington County.
George W. Hicks, Williamsport, Washington County.
John E. Kelley, 344 N. Potomac St., Hagerstown, Washington County.
Franklin L. King, Williamsport, Washington County.
Mary F. Clarke, Elkins West Virginia (Washington County).
Eliza E. Fish, Salisbury, Wicomico County.
Lottie J. Fish, Salisbury, Wicomico County.
William A. Riffin, Sharptown, Wicomico County.
Amanda E. Dennis, Berlin, Worcester County.
Richard K. Wimbrough, 161-169 W. 140th St., New York City (Worcester County).

George P. Morris, Freeland, Baltimore County.
 S. Lizzie A. Starr, Whiteford, Harford County.
 Isaac L. English, Mardela Springs, Wicomico County.
 William Griffith, 512 N. Gilmor St., Baltimore City.
 Laura A. Yeatman, 634 N. Carrollton Ave., Baltimore City.
 Eliza S. McDevitt, 33 S. Fulton Ave., Baltimore City.
 William R. Winchell, Boyds, Montgomery County.
 Fannie Eccles, Lumbertown, North Carolina (Baltimore City).
 Anna M. German, 1834 N. Broadway, Baltimore City.
 Louisa M. Kelley, 101 N. Carolina Ave., Washington, D. C.
 Susan M. Garrett, Braddock Heights, R. F. D. No. 26, Frederick County.
 Marlan B. Stansbury, 304 N. Stricker St., Baltimore City.
 Mary W. Storke, 639 N. Calhoun St., Baltimore City.
 Mary E. Beaufort, 1405 Madison Ave., Baltimore City.
 Laura Sherwood, 220 S. Chester St., Baltimore City.

TRAINED TEACHERS.

BY THE STATE SUPERINTENDENT.

It is hard to think of a more remarkable circumstance in connection with the history of our State than the fact that the vocation or profession of teaching, delicate as are its duties and important as are its requirements, should be about the last for which special training is required. The great public heart which should beat responsive to every demand vital to the public good is not in the right place so long as it will permit, by legal sanction, persons to be employed as public school teachers who have not received special preparation and training for the work.

Whether conditions in the past warranted such a situation it is not important to discuss; but as for the present and the future there appear no good reasons why all new and inexperienced teachers should not possess at least two fundamental qualifications, viz: (1) good scholarly attainments and (2) teaching skill. In by-gone days the maxim was generally accepted, "What one knows, that he can also teach;" but now we have learned better and realize there is a wide distinction between knowing and the ability to impart knowledge. Thanks to the last General Assembly of Maryland for its recognition of this fact in the passage of a law requiring that teachers of experience whose certificates are first class shall not receive as salaries less than certain amounts stipulated in the law. The law places the emphasis where it belongs and puts a premium on skill or efficiency. This legislative event has done more to put a "thinking cap" on those teachers whose work has been but partially successful than all the argument put forth by school officials for the past decade.

The State has been committed to the proposition of trained teachers for all the schools for more than forty years. The normal school is as old as our State school system. If it was a necessary thing to provide for trained teachers at all, it meant that all schools should have such teachers. Any other assumption would be unfair and unjust to the motive of those who saw the necessity for training teachers and then planned a normal school to give it. The State has an equal interest in all its schools and it was never meant that some schools should have professional and others non-professional teachers.

But what is the situation? The following table shows that not more than one-third of the new and inexperienced teachers employed in the counties of Maryland last year were graduates of normal schools or had received special training for teaching, while more than three hundred and fifty new teachers were employed for the school year 1908-09, which we will take as an average, we are now graduating less than one hundred annually from our State normal schools:

COUNTIES.	Normal School Graduates.	College Grad- uates.	Preparation limited to the Public Schools.	Total number of new and inexperienced teachers em- ployed 1908-09.
Alleghany	13	1	1	15

*Eight of the ten received some pedagogical training for one year at McDonough Institute.

REPORT OF THE SECRETARY OF THE MARYLAND STATE TEACHERS' READING CIRCLE.

George Herbert Palmer, in the April Atlantic Monthly, writing of "The Ideal Teacher," says that one of the four characteristics which every ideal teacher must possess is "an already accumulated wealth. These hungry pupils are drawing all their nourishment from us and have we got it to give? They will be poor if we are poor; rich if we are wealthy. We are their source of supply. Every time we cut ourselves off from nutrition we enfeeble them. And how frequently devoted teachers make this mistake! Dedicating themselves so to the immediate needs of those about them that they themselves grow thinner each year . . . That is exactly the opposite of what it should be. The teacher should be the big, bounteous thing of the community. But the ideal teacher will accumulate wealth not merely for his pupils' sake, but for his own. To be a great teacher one must be a great personality, and without ardent and individual tastes the roots of our being are not fed. For developing personal power it is well, therefore, for each teacher to cultivate interests unconnected with his official work. Let the mathematician turn to the English poets, the teacher of classics to the study of birds and flowers, and each will gain a lightness, a freedom from exhaustion, a mental hospitality, which can only be acquired in some disinterested pursuit."

The above quotation most aptly states the real purpose and aim of our Reading Circle. It is the aim that controls the Board of Managers in its selection of books for the reading course. Books, the reading and study of which will result in professional growth, in mental stimulation, in a "lightness, a freedom from exhaustion and in a mental hospitality," and make the teacher a richer and more bounteous giver, are searched for and adopted.

The teacher who reads and studies the books of our courses, who comes to them really desiring and seeking the thoughts and ideas the author would give her, and who is willing to give and does give real attention to the work of making those thoughts hers, will feel the touch of a living, virile force, and will react to the message of inspiration given.

ORGANIZATION.

Acting under the authority conferred by the Laws of 1890, Chapter 323, giving the Maryland State Teachers' Association

power to organize, manage and direct a State Teachers' Reading Circle and adopt therefor a course of study in pedagogy, general literature, etc., the Maryland State Teachers' Association has appointed

Dr. M. Bates Stephens, State Superintendent of Public Education, Annapolis; Mr. J. Mont. Gambrill, Baltimore Polytechnic, Baltimore; Miss Sarah E. Richmond, State Normal School, Baltimore; Mr. H. H. Murphy, Principal High School, Reisterstown; Mr. Herbert E. Austin, State Normal School, Baltimore; Miss M. M. Robinson, Western Maryland College, Westminster; Mr. Edward M. Noble, Superintendent of Schools, Caroline County, Denton; Mr. B. K. Purdum, Assistant State Superintendent of Public Education, Annapolis, a Board of Managers to manage and direct the State Teachers' Reading Circle, and to carry out the provisions of the above Act. The Board of Managers is organized with Dr. M. Bates Stephens, ex-officio chairman, and Mr. Herbert E. Austin, secretary.

CERTIFICATES AND TESTIMONIALS.

Certificates, countersigned by the Chairman and Secretary of the Board of Managers, are granted to those members, who, having completed one year's work, present satisfactory evidence of having thoroughly and thoughtfully read the books assigned. This evidence is presented in the form of themes, written in accordance with requirements issued by the Board, and which may be had upon application to the Secretary.

Testimonials, countersigned by the Secretary of the State Board of Education and the Secretary of the Board of Managers, are awarded by the State Board of Education to all members who have satisfactorily completed three years of Reading Circle work, and who are recommended for this honor by the Board of Managers. By vote of the State Board of Education, those desiring Teachers' Life Certificates may offer these testimonials in lieu of the required examination in the Professional Subjects and they will be accepted.

ASSISTANCE.

The Board of Managers desires to be as helpful as possible to the teachers of the State. Members of the Reading Circle desiring information or advice at any time on any of the subjects of study are invited to direct their communications to the Secretary of the

Board of Managers named above and he will refer it to the one appointed to have special oversight over that subject of study to which the matter belongs.

MEMBERSHIP.

All teachers of Maryland and all persons above the age of eighteen years are eligible to membership. An annual membership fee of twenty-five cents is required in order to meet the necessary expenses of the organization. Its payment entitles the member to a membership card, to all syllabi and information relating to the courses, that may from time to time be sent out by the Secretary, and to a certificate after satisfactory evidence of work done has been presented to the Board of Managers. Membership cards may be obtained from the County Secretary or from Mr. Austin.

COURSES OF STUDY.

There are four courses of study outlined for the year 1909-10—one major course, Pedagogy, and three minor courses, Literature, History and Science. Every member who wishes to receive the certificate of the Board of Managers for 1909-1910 must take the major course, Pedagogy, and, in addition, one of the minor courses—Literature, History or Science—prescribed for 1909-1910.

PREScribed WORK FOR 1909-1910.

Pedagogy—Bagley's "The Educative Process." The Macmillan Co. (Single Copies \$1.12, postpaid. Ten or more copies to one address \$1.00 per copy.)

English—Heydrick's "How to Study Literature." Hinds, Noble and Eldridge. (Single Copies 60c. Ten or more copies to one address 50 cents each.) Shakespeare's "Hamlet" and "Merchant of Venice." (Macmillan's Pocket Classics, 25 cents per volume. Hudson's School Shakespeare, Ginn & Co. Cloth, 50 cents; paper, 35 cents per volume. The Arden Shakespeare, D. C. Heath & Co., 25 cents per volume.)

History—McMurray's "Special Method in History." Macmillan Co. (Single Copy 68 cents, postpaid. Ten or more to one address 60 cents.) Johnson's "The Problem of Adapting History to Children in the Elementary School." Teachers' College Record. Vol. IX, No. 5. (Single Copies 30 cents. Five or more copies 24 cents.)

Science—Allen's "Civics and Health." Ginn & Co. (\$1.00, postpaid.)

PURCHASE OF BOOKS.

The required books may be obtained at the office of the County Superintendent, at the book stores in Baltimore, or from the publishers.

Wherever possible, members are advised to purchase their books through the Superintendent of their County, as books so purchased can frequently be obtained at lower prices than those quoted above.

THE PRESCRIBED WORK SINCE REORGANIZATION IN 1901

1901-1902.

Hinsdale's "Art of Study."

Barrett Wendell's "English Composition."

Shakespeare's "Julius Cæsar" and "As You Like It."

Scott's "Nature Study and the Child."

1902-1903.

White's "The Art of Teaching."

Matthew's "Introduction to American Literature."

Lowell's "Vision of Sir Launfal" and "Commemorative Ode."

Hodge's "Nature Study and Life."

1903-1904.

Shaw's "School Hygiene."

Bliss Perry's "A Study of Prose Fiction."

Scott's "Ivanhoe."

Andrew's "Botany All the Year Round."

1904-1905.

MacMurry's "The Method of the Recitation."

Bliss Perry's "The Study of Prose Fiction."

George Eliot's "Silas Marner."

Andrew's "Botany All the Year Round."

1905-1906.

James' "Talks to Teachers."

Thackeray's "Henry Esmond" and "Vanity Fair."

Fiske's "Critical Period in American History."

Ball's "Starland."

1906-1907.

Seeley's "History of Education."
Chubb's "The Study and Teaching of English."
Hart's "Source Book of American History."
Hielprin's "The Earth and Its Story."

1907-1908.

O'Shea's "Dynamic Factors in Education."
Chubb's "The Study and Teaching of English."
Bryant's "How to Tell Stories."
Spark's "The Men Who Made the Nation."
Hodge's "Nature Study and Life."

1908-1909.

Bagley's "Classroom Management: Its Principles and Technique."
Colby's "Literature and Life in the School."
Browne's "Maryland. The History of the Palatinate."
Wright's "The Citizen Bird."

CERTIFICATE REQUIREMENTS FOR THE
COURSE OF 1908-1909.

Caution.—Read the directions very carefully before writing, and follow them carefully and fully.

Pedagogy.—Text: Bagley's "Classroom Management," \$1.25. Macmillan Co.

Topic I. "On Creating and Preserving Hygienic Conditions in the Country Schools." Based on Chap. VI of Bagley's Classroom Management, supplemented by the teacher's own experience and observation.

Efficiency of "dust squads" composed of pupils appointed by the teacher at regular intervals. Means of securing ventilation without dangerous drafts; sufficient light, heat; how to adapt the height of seats and desks to pupils of varying height; the regulation of hygienic conditions on the school premises. Other subjects will suggest themselves.

Topic II. "On Fatigue: its signs, treatment and prevention." Select a dozen of your weaker pupils and observe what signs of fatigue occur in the behavior of each on successive days for a couple of weeks. Consider the causes of fatigue in the particular cases.

By rearranging the daily routine, the seating of pupils, length and frequency of recitation periods, the order of daily exercises, in so far as you have authority to do so, see to what extent you can eliminate these indications of fatigue. Keep complete notes of all that you do and do not cease experimenting until you have some results to show for it.

Topic III. "On the First Day in the Country School Term." What can best be done for primary as well as for more advanced pupils. Treat this from the point of view of Chap. II. On this day routine is being initiated. How can one best make a start on this day toward securing the co-operation of parents.

Topic IV. "On Winning the Pupils' Attention." Relative efficiency of the school incentives; their weakness. Correlation of the health of pupils with the power to yield attention. Correlation of the physical condition within the school-house and premises and of the "atmosphere" of the school and community therewith.

Note.—Write upon any two topics selected from the four given; each paper not to exceed 1200 words in length.

History.—Text: Browne's "Maryland: the History of a Palatinate."

A. History of the Government of Maryland. A paper not to exceed 1500 words in length, outlining the different governments under which the people of Maryland have lived, and the change from one to another. The following topics should be among those treated: The proprietary charter and the early government under it; the royal government; the restored proprietary government; changes that took place without alteration or suspension of the fundamental law (charter); the application of English law; the Revolutionary governments; the State constitutions.

B. A short paper, not to exceed 800 words, on one, and only one, of the following topics, the one selected to be treated historically.

1. The boundaries of Maryland—a historical view.
2. Religious conditions in Maryland.
3. Maryland's part in the Nation's wars.

Science.—Text: Wright and Coue's "Citizen Bird." Macmillan Co.

The requirements for this course include the answering of several questions and the writing of a short theme.

1. After carefully reading the book assigned for this course, what conclusions have you come to as to the author's purpose in writing

this book? Give references that would seem to reveal these aims to you.

2. This book was selected for your reading this year because it could be used most profitably by you to supplement the science work of last year. (Consult Hodge's "Nature Study and Life," Chapters XVIII and XIX.) How? Why?

3. The books suggested for the required reading in science will be of little relative value to you if you are satisfied with simply reading them. They suggest, or should suggest, opportunities for coming into a closer and more beneficial contact with our Nature environment. They should be, for the time being, your guide and teacher.

Write a brief paper, not exceeding 1000 words in length, telling your experiences—what you have gained and learned under the leadership of this book.

English.—Text: Colby's "Literature and Life in the School."
Houghton, Mifflin & Co.

Members desiring recognition for the work done in Literature and Life in the School must present *one* theme from the outlines below. Paper not to exceed 1500 words in length:

1. The Value of Literature in Education.
2. The Relation of Literature to Child Life.
 - a. The child's spiritual equipment on entering school.
 - b. How literature supplies the need of the expanding spirit.
3. How to bring literature to the child in the first four years; the second four years. (Select one).
 - a. Your aim.
 - b. How would you bring about the desired result, stating specifically what you would use with the means at your command.
4. What are the results to be achieved in High School English.

SUGGESTIONS.

Those submitting themes are requested to follow these suggestions:

1. Write the name and address of the writer at the top of the first sheet of each theme.
2. Write only on one side of the paper.
3. If possible, use paper about eight inches by ten inches in size.

4. Leave a good margin, at least an inch, for the notes and criticisms of the reviewer.

5. Stress will be laid upon the proper use of capitals and punctuation marks; paragraphing and correct grammatical expression.

6. Themes must show that the author's views have been assimilated by the writer. No paper will be accepted that is a verbatim report or reproduction of the book assigned for reading.

7. Do not roll or fold your manuscript. Mail it flat.

8. Criticisms, when they appear, are made with the hope that they will be accepted in the spirit in which they are written, and that they will prove helpful to the writer of the theme. It is hoped that the criticism will be carefully noted and that the reader will earnestly strive to correct the fault.

All themes should be sent on or before January 15, 1910, to Herbert E. Austin, Secretary, State Normal School, Baltimore, Md.

The following extracts from the Secretary's eighth annual report to the Maryland State Teachers' Association will be of general interest:

The records for the year 1908-1909 show an enrollment of 652. Our membership for the year is distributed among the counties as follows:

Allegheny	...	Howard	25
Anne Arundel.....	1	Kent	33
Baltimore	...	Montgomery	104
Calvert	...	Prince George's.....	...
Caroline	2	Queen Anne's.....	...
Carroll	...	St. Mary's.....	1
Cecil	130	Somerset	2
Charles	...	Talbot	75
Dorchester	104	Washington	1
Frederick	27	Wicomico	107
Garrett	1	Worcester	...
Harford	34		

Since our last report, the following members have completed a three years' course, and, having met the requirements of the Board of Managers, have been awarded a Testimonial Diploma by the State Board of Education on the recommendation of the Board of Managers:

Elizabeth Anderson.....	Kent.	Anna Healy.....	Harford.
Mary L. Budd.....	Cecil.	Arrie McCoy.....	Cecil.
Katherine Budd.....	Cecil.	Emily E. Moore.....	Cecil.
Ella Cannan.....	Cecil.	Clarence Reddick.....	Frederick.
Ethel Du Hamell.....	Cecil.	Edith A. Smith.....	Baltimore.

During the year the following named persons have completed one year's course of reading and have been awarded certificates by the Board of Managers:

COURSE OF 1906-1907.

Elizabeth Anderson.....Kent.	Anna Healy.....Harford.
Carrie Bassford.....Somerset.	Edith A. Smith.....Baltimore.

COURSE OF 1907-1908.

Nora V. Boston.....Cecil.	Cecil V. Goslee.....Wicomico.
Mary L. Budd.....Cecil.	Arrie McCoy.....Cecil.
Katherine Budd.....Cecil.	Emily E. Moore.....Cecil.
Mary Emily Clark.....Cecil.	Belle V. Price.....Cecil.
Ella Cannan.....Cecil.	Clarence Reddick.....Frederick.
Helen Davidson.....Cecil.	Elva Reddick.....Frederick.
Ethel Du Hamell.....Cecil.	Edith A. Smith.....Baltimore.

Themes based upon the work of 1909-1910 must be in the hands of the Secretary not later than January 15, 1911. Requirements will be sent upon application.

Any further information regarding the Reading Circle may be obtained from HERBERT E. AUSTIN, Secretary Board of Managers, State Normal School, Baltimore, Md.

SOURCES OF INCOME FOR PUBLIC EDUCATION IN MARYLAND.

Owing to the gradual development of our Public School System and the constantly increasing need for and sentiment in favor of additional encouragement from the State, this aid has been given in a number of different ways, and from various sources, which may be enumerated as follows:

THE FREE SCHOOL FUND.

This fund is made up from four different sources.

(1) Between the years 1815 and 1873 a tax was laid on incorporated banks, which produced in that time \$113,054.50; this amount, as it accumulated was invested in bank stock for the benefit of the public schools of certain counties—Allegany, Charles, Calvert and Garrett never having been included. This produced in 1909, \$7,775.11.

(2) During the 1812 War \$229,988.00 was advanced to the National Government, and when returned to the State in 1858 was invested for public schools, and the income distributed among the counties and City on the basis of their representation in the General Assembly. This produced, in 1909, \$10,379.64.

(3) In 1837 an Act of Congress ordered the distribution of the "Surplus Revenue" in the United States Treasury among the States. Maryland received \$900,000.00. The Legislature, after using part of this in the payment of debts, ordered that the remainder, \$681,387.25, be invested at 5% for the benefit of the public schools. It was finally used in the retirement of State bonds, and the Legislature now appropriates annually the equivalent of the 5% interest, which is \$34,069.36; after setting aside \$2000 for the indigent blind, the remainder is divided into two equal parts:—one part is divided among the counties and City in proportion to their white population, while the counties and City each receive equal units of the other half.

(4) The last source of income to this Fund is \$21,000 from the General Treasury, which, with the \$2000 above mentioned, goes to the education of indigent blind.

The income of this Fund, may be summarized as follows:

(1) Bank Stocks.....	\$7,775 11
(2) 1812 War Fund.....	10,379 64
(3) Surplus Revenue.....	34,069 37
(4) General Treasury.....	21,000 00
Aggregate.....	<u>\$73,224 11</u>

THE ACADEMIC FUND.

The earliest demand for Secondary Education in Maryland was supplied by private schools known as Academies. These schools gradually increased in number, usefulness and importance, until it came to be felt that their good work merited some encouragement from the State. Consequently in 1798 an Act of the Legislature appropriated \$800 each to five of these institutions. Subsequent Acts or Resolutions in 1831, 1832,

1825, 1840, 1856, 1864 and 1870 provided aid for numerous other academies, the amount in many cases being increased to \$1200, or when more than one academy was located in the same county, the amount was divided among them. In counties where there was no academy, the appropriation often went direct to the School Board. The intention of the Legislature seemed to be to aid each county to the extent of \$1200, though some received more.

The last appropriation to an academy was made in 1870, the reason evidently being due to the fact that from about that time on, the high school began to supply the need previously met by the Academy. In recent years, the Legislature has inconsistently made special appropriations of \$500 each to five or six approved high schools—we say inconsistently, because we see no reason why any one high school should receive such an appropriation to the exclusion of all others.

All of these appropriations are paid out of the General Treasury of the State, and amounted in 1909 to.....

\$27,500 00

THE STATE SCHOOL TAX.

When the State School System was established in 1865, the State tax for schools was fixed at 15c. on the \$100. This varied from year to year, but was never lower than 10c. In 1896, when the Free Text Book Law was enacted an additional 2c. was added for that purpose; this was reduced to 1¼c. in 1902. In 1906 the total rate was fixed at 16c. and \$150,000 for Text Books was to be taken from the amount thus raised. In 1908, in order to provide a sinking fund, and pay interest on the Good Road Bonds by direct taxation, as required by the Constitution, the school tax was reduced to 14½c., the difference being made up out of the General Treasury. This levy in 1909 amounted to \$1,193,203.92. In addition to the amount so raised, must be added a tax on Incorporated Institutions, which amounted in 1909 to \$95,557.49; also a tax on Baltimore City Stocks, which amounted, in the same year, to \$37,609.47, and \$75,000 appropriated from the General Treasury to compensate for the amount used for the Good Roads Fund. These items aggregate.....

\$1,401,370 88

After deducting \$150,000 for Free Text Books, \$37,500 for Normal Schools, and \$9,859 for the State Department, the balance is distributed among the counties and Baltimore City in proportion to the population of school age.

MANUAL TRAINING APPROPRIATION.

The Legislature of 1898 provided, out of the General Treasury an appropriation of \$1500 for each county for Manual Training. In 1909 twenty-one of the counties had availed themselves of this appropriation, which aggregated.....

\$31,500 00

COLORED INDUSTRIAL APPROPRIATION.

The Legislature of the same year provided, out of the General Treasury, a similar appropriation for Colored Industrial work, and in 1909 ten of the counties had availed themselves of this appropriation, which aggregated.....

15,000 00

COMMERCIAL APPROPRIATION.

Chapter 635 of the Acts of 1908 provided, out of the General Treasury, appropriations of \$1000 for the establishment of Commercial Departments in approved high schools. They vary in number from one to three in each county according to the Total School Enrollment, with four appropriations for Baltimore City.

This amounted, in 1909, to..... \$37,000 00

The foregoing amounts, all of which come from the State, may be summarized as follows:

(a) Free School Fund.....	\$73,224 11
(b) Academic Fund.....	27,500 00
(c) State School Tax.....	1,401,370 88
(d) Manual Training Appropriation.....	31,500 00
(e) Colored Industrial Appropriation.....	15,000 00
(f) Commercial Appropriation.....	37,000 00

Total from the State..... \$1,585,594 99

We do not include here, the more than \$200,000 appropriated from the General Treasury to Colleges, University and Special Schools—all of which are private institutions.

LOCAL INCOME.

In addition to small amounts received from licenses and magistrates' fines, in certain counties, the entire local source of income for schools is from direct taxation.

The law fixes 15c. as a minimum for this purpose, and a forfeiture of the last quarterly distribution of the State School Tax, as a penalty for non-compliance. Many counties have, by local legislation, fixed this minimum much higher, and in 1909 the rates ranged from 15c. in St. Mary's to 46.6c. in Cecil.

The total amount raised by local taxation in 1909 was..... \$2,296,954 09

Making a final summary, we have:

Total from State.....	\$1,585,594 99
Total Local Tax.....	2,296,954 09

Total from All Sources..... \$3,882,549 08

MARYLAND COMPARED WITH OTHER STATES.

For the sake of comparison, we give herewith a number of States whose population is near to that of Maryland, with the amount of money expended for public schools in the year 1907-08.

	Population Census 1900.	Public School Expenditures Year 1907-08.
Maryland	1,188,044	\$3,664,692 00
California	1,485,053	12,218,704 00
Connecticut	908,420	4,335,802 00
Kansas	1,470,495	7,010,838 00
Louisiana	1,381,625	3,481,275 00
Nebraska	1,066,300	5,759,222 00
South Carolina.....	1,340,316	1,415,724 00
West Virginia.....	958,800	4,271,153 00
Porto Rico.....	953,243	1,053,097 00

MARYLAND STATE NORMAL SCHOOL, BALTIMORE.

REPORT OF THE PRINCIPAL, MISS SARAH E. RICHMOND.

*To the Honorable Members of the State Board of Education,
Annapolis, Md.*

Gentlemen:

In compliance with the law I submit to you the report of the Maryland State Normal School for the scholastic year ending July 31st, 1909.

There were enrolled in the school last year two hundred and sixty-six students representing Baltimore City and every county in Maryland excepting Garrett County.

Sixty-three of these students received the diploma of the school entitling them to teach in the public schools of Maryland. At the date of this report fifty-four of these graduates are already engaged in teaching.

The course of study adopted by your Board, June, 1908, has been in effect one year and so far has proved satisfactory.

The effect of lengthening the school day forty-five minutes has not been so satisfactory. Six hours confinement in the same atmosphere without an opportunity to go into the open, has proved somewhat fatiguing to both students and teachers and there is a decided sense of weariness at the close of the school day. Many of our students have out-of-town residences and go to and from school by train. The late hour of closing school, 3 P. M., has obliged several students either to lose a whole or part of a recitation that they may make an earlier train, or to reach their homes, sometimes a mile or two from the station, after dark.

In establishing the departments of Pedagogy, Science, English, History, Mathematics and Latin, the Board has helped to a better organization of the school work and has advanced the school in professional dignity. The teachers in each department are capable and scholarly, not only enthusiastic and deeply interested in the work of a special department but anxious to co-ordinate their department to and correlate its work with all other departments.

In the coming year we shall lose the services of two members of our faculty—Dr. George W. Ward and Prof. Herbert E. Austin.

Dr. Ward after four years of conscientious work as principal of the school resigned his position for a more lucrative line of work in the mercantile world. Professor Austin had been a teacher in the school for seventeen years in which time he had secured the admiration and esteem of all his students for his strict integrity and able services. Professor Austin left us to accept a similar position to that which he held in this school, head of the department of science, in a State Normal School in Greenville, N. C., where he thought there was a wider field, a better opening to more advanced work and where a larger salary was offered.

The great need of the school lies in the lack of necessary and modern apparatus. To be without sufficiently illustrative material in teaching is a serious hindrance. In a normal school it is vital that he whose mission is to instruct others should secure an active grasp on all principles underlying the subject learned. For this reason suitable apparatus for the better instruction in a subject is especially needed in a normal school.

The Model School during the last few years, and particularly the last year, has been growing into closer and more useful relationship to the Normal School. It has become in fact a training school where the members of the Senior Class in the Normal School have continual practice in disciplining and in teaching the several grades to be found in our rural schools. This teaching by the Senior Class is supervised by competent critic teachers of much experience who have frequent conferences with the student teachers in order to intelligently guide, assist, and to encourage them. The student teacher is then held responsible for results both in disciplining and in instructing the classes. We hope next year to increase by several weeks this period of training in the Model School.

I have the honor to be, with high respect,

Very truly yours,

SARAH E. RICHMOND.

Principal Maryland State Normal School, Baltimore.

SARAH ELIZABETH RICHMOND, A. M., Principal,
Civics, School Management.

WALLACE FRANKLIN JONES, A. M.,
Pedagogy.

WILLIS HAMEL WILCOX, Ph. M.,
English.

ELLA VIRGINIA RICKER,
History.

MARY HUDSON SCARBOROUGH, A. B.,
Mathematics.

ERNEST ETHAN RACE, A. M., Ph. B.,
Science.

FLORENCE AUGUSTA SNYDER,
Art, Manual Training.

CAMILLA JONES HENKLE,
Assistant in Science and Mathematics.

IDA MASON COX,
Voice Training, Physical Training.

ROBERT LEROY HASLUP,
Music.

ROSA BALDWIN, A. B.,
Latin.

MINNIE LEE DAVIS, Principal, Model School,
Advanced Grades.

HANNA ALICE COALE,
Intermediate Grades.

INEZ MYRTLE JOHNSON,
Primary Grades.

MOLLIE WALTON TARR,
Secretary and Librarian.

STATE NORMAL SCHOOL, No. 2, FROSTBURG, MD.

REPORT OF THE PRINCIPAL—REGINALD H. RIDGELY.

GENERAL INFORMATION.

HISTORY.

On September 15th, 1902, the doors of the State Normal at Frostburg were opened to students for the first time. Three classes were formed: Freshman; Sophomore; Junior. Full work began on the 18th with the organization of primary classes in the Model Department. This was accomplished through the co-operation of the Board of School Commissioners for Allegany County, who transferred pupils and teachers from the Beall School to the Normal.

COURSE OF STUDY.

The Course of Study begins in the Freshman year with a careful review of the major subjects of the Common-School branches, presented from both the professional and the academic view-point—thus affording two-fold advantage to the student. The study of the theory and the art of teaching begins in the Junior year, and continues throughout the course. In addition, students will be required before graduation to do observation and practise work in the Training school for at least one hour a day during the last year. *This is the keystone in the arch which Maryland expects her Normal Schools to build.* To those students who may not be able to complete the course, the Freshman and Sophomore years offer excellent opportunity to prepare for examination for teachers' certificates, since they cover the usual high school course.

NATURE AND FUNCTION OF THE NORMAL.

The special function of the Normal School is, to prepare young men and young women for the profession of teaching. This must be accomplished, first, through thorough and liberal academic work; second, through the study of the child; third, through the study of the philosophy of teaching and school management, and, fourth, through practise and training in the model department.

Therefore, the work of the Normal School differs from that of the college. A college aims to give instruction in the various branches of learning considered as knowledge—to bring about general culture; the Normal School teaches not only the subject matter of the various branches, but also “the processes by which the learning mind acquires knowledge as the resultant of these processes.” Hence, in Frostburg, the effort is made to keep this aim constantly before the student throughout his academic career as a learner. This fact distinguishes the Normal School from other institutions of learning and determines the course of study as well as the distinctive method of teaching in the various branches.

CHARACTERISTICS OF THE SCHOOL.

A school is known through its dominant characteristics, and its value is determined by its results. This school stands, first of all, for the best that is possible in public school education. It stands for the most practical and the most sensible things that can be done for boys and girls of this commonwealth. It is the aim of the Principal to put into the Normal, and, through its graduates, into the public schools, the things that shall be of the greatest benefit to the children of the common schools.

In the second place, this institution stands for hard work and sound scholarship. Those who complete its course of study should have no reason to fear educational tests wheresoever duty calls them. Its graduates should be successful in the great work of teaching, and meet the commendation of their official superiors.

In the third place, this school stands for freedom in method. There are no pet theories to advocate, no pet hobbies to ride. The members of the faculty must be specialists in their respective lines, and should be granted all freedom that is essential to the highest good in pedagogical training; hence, they must be alert and ready, striving to attain the best in educational results.

In the fourth place, the school stands for sound morals and high character, beautified and ennobled by “that fine sense which men call courtesy.” Students of every creed and degree are welcome; but the daily practise of honorable living, moral dignity, and courteous manners is expected of all alike.

LITERARY SOCIETIES.

Two societies, the Stephens and the Chaplain, were organized early in the first term of the first year, and they hold regular meet-

ings each Friday. Much interest has been shown in this work by the students.

THE TRAINING SCHOOL.

This department is in charge of experienced teachers. Work begins with the primary grades, and every opportunity is afforded for observation and practice under criticism. Primary manual training, in correlation with other work, is an integral factor. The department is directly under the charge of the Principal of the Normal School, and is the very heart of the school body.

A pupil may also enter the first year of the model department and continue through all the grades and classes of the school until, finally, the diplomas of the State is granted to one accredited as a teacher.

GRACE H. DANDO, Assistant,
Grade Work.

NORMAL DEPARTMENT OF WASHINGTON COLLEGE.

REPORT OF THE PRINCIPAL, JAMES W. CAIN.

November 1, 1909.

The Honorable State Board of Education, Annapolis, Md.

Gentlemen: I have the honor of submitting the following report of the Normal Department of Washington College for the session 1908-09, and for the session 1909-10 to date. There were in attendance for the session 1908-09:

Senior Class.....	7
Junior Class.....	12
Second Academic Class.....	13
First Academic Class.....	5
Total.....	37

At the annual commencement, held on June 16, 1909, there were graduated eight young women, viz:

Eva Virginia Anderson.....	Church Hill, Md.
Sarah Ethel Collison.....	Mayo, Md.
Ethel Cooper.....	Bozman, Md.
Della Grace DeGruchy.....	Perry Hall, Md.
Mary Edith Denny.....	Queenstown, Md.
Lydia Newnam Jones.....	Millington, Md.
Inez Russell.....	Chestertown, Md.
Inez Emma Tyler.....	Chance, Md.

All of the above are now engaged in teaching in this State. The curriculum was faithfully carried out, better arrangements for practice teaching having been made with the local school authorities. Indeed, the practice now obtained by teaching classes at the college and at the public school fully complies with the requirements of the curriculum in this respect.

Dr. Robert H. Gault, Professor of Psychology and Pedagogy, tendered his resignation at the close of the session 1908-09, and Dr. Herbert C. Sanborn was elected to fill the vacancy. Doctor Sanborn is a man of great ability, especially gifted in the field of philosophy, whose scholarship has already won him much distinction. He is able to contribute much that is wise and constructive to the educational policy in this State, and will, I am sure, do so whenever opportunity presents itself.

There are in attendance to date for the session 1909-10:

Senior Class.....	10
Junior Class.....	10
Second Academic Class.....	13
First Academic Class.....	4
Total.....	37

I enclose herewith as a separate document the action of a Committee of the Visitors and Governors, to which was referred the letter of the State Superintendent communicating the action of Your Honorable Board with respect to balances to the credit of the Normal Department and the forwarding of bills for approval and payment; also as a separate document a statement showing the number of scholarship students, as requested in the letter of the Assistant Superintendent under date of October 18, 1909.

I have the honor to be,

Very respectfully yours,

JAS. W. CAIN,

Principal Normal Department of Washington College.

1908-1909.

Introductory.
Public School Officials.
List of Institutes. 1908-09.
Institute Directors.
Public High Schools—Approved by the State Board of Education.
Manual Training and Colored Industrial Schools.
Course of Study for Normal Schools.
Laws and By-Laws Pertaining to Teachers.
Teachers' Life Certificates.
School Anniversary Programs—Washington's Birthday.
Arbor and Bird Day.
Maryland Day.

Rural School Programs.
Synopsis of N. E. A. Committee Reports—Committee of Seven.
Committee of Ten.
Committee of Twelve.
Committee of Fifteen.
Topic Outline for Higher Grades.
Synopsis of Bagley's Classroom Management, with Outlines.

In addition to collections of appropriate recitations, readings, songs, etc., the following "Washington's Birthday" and "Arbor Day" programs were suggested:

WASHINGTON'S BIRTHDAY.

February 22d, 1909.

SUGGESTIVE PROGRAM.

1. Song—Our Country.
2. Reading—Washington (John Fiske).
3. Recitation—Selected.
4. Song—God Bless Our Fatherland.
5. Essay—Our Country in Washington's Time and Now.
6. Recitation—Selected.
7. Debate—Comparison of Washington and Napoleon.
8. Recitation—Selected.
9. Remarks by Teacher or Patron.
10. Closing Song—Selected.

ARBOR AND BIRD DAY.

Friday, April 30, 1909.

SUGGESTIVE PROGRAM.

1. Song.
2. Reading of Scripture Selections.
3. Quotations.
4. Reading—Preservation of Our Forests.
5. Recitation—Selected.
6. Essay on Suggested Topic (Intermediate).
7. Dialogue—Spring Blossoms (Primary), or—Why We Keep Arbor Day (Primary).
8. Essay on Suggested Topic (Advanced).
9. Tree Planting.
10. Song of Dedication.
11. Closing Exercises.

MARYLAND DAY.

March 25th, 1909.

TOPIC:

"Maryland's Contribution to 'American Literature.'"

This chapter contained short biographical sketches of and selections from such leading Maryland Authors as Edgar Allan Poe, James Rider Randall, Sydney Lanier, Francis Scott Key and Richard Malcolm Johnston, and also a list of about one hundred other Maryland authors with date of birth, death and principal works.

The following assignment of speakers for this occasion was made by the State Department:

Maryland State Normal School—Dr. Bernard C. Steiner.
Baltimore City College—John Wilber Jenkins.
Western High School—Joseph Y. Brattan.
Eastern High School—Allen S. Will.
Towson High School—A. S. Goldsborough.
Catonsville High School—Oscar B. Coblenz.
Franklin High School—B. K. Purdum.
Sparrows Point School—Rufus K. Wood.
Lutherville School—Rev. W. H. H. Powers.
Belair High School—Dr. M. Bates Stephens.
Westminster High School—John Mays Little.
Ellicott City High School—Rev. Vernon N. Ridgely.
Frostburg Normal School—J. W. Thomas.
Rockville High School—George H. Lamar.
Annapolis High School—John Wirt Randall.

North East High School—Ridgely P. Melvin.
Denton High School—Rev. George L. Hardesty.
Chestertown High School—Rev. F. T. Little.
Gaithersburg High School—Charles W. Prettyman.
Washington High School—George H. Myers.
Havre de Grace High School—Dr. James N. Cain.
Brunswick School—Judge Glenn H. Worthington.
Oakland High School—Clayton Purnell.
Greensboro School—Rev. Frank T. Benson.
Sharpsburg School—Rev. E. T. Mowbray.
Ridgely School—Rev. J. Gibson Gantt.
Girls' High School, Hagerstown—Rev. C. Clever.
Boys' High School, Hagerstown—Rev. J. P. Tyler.

ORIGIN OF THE STATE SCHOOL SYSTEM.

Prior to 1696 all education in Maryland was private. It had been early realized that in order to maintain the policy of the Colonial Government, improve the standard of citizenship, and for the "advancement of the natives," as it was put, some scheme of education either wholly or in part supported and controlled by the Colony was necessary. Another motive seemed to be the desire to supply native recruits for office holders and the clergy without drawing on the Mother Country.

All efforts to pass a law in the interest of education prior to 1694 had failed, and the act of that year was never carried out. The Act of 1696 created a corporation to consist of not more than twenty persons with power to make laws and rules to govern all schools to be established under the Colonial Government, and, since their jurisdiction extended over the entire Colony, this may be considered the first germ of a State Board of Education.

This body was styled the Rectors, Governors, Trustees, and Visitors of the Free Schools of Maryland. Their plan was to establish one school in each of the twelve then existing counties. There was no direct tax imposed for schools, and their income consisted of revenues derived, from time to time, from a tax on skins, tobacco, negroes, bachelors, and voluntary contributions. The first school established under this act, was at Annapolis, and was known as King William's School. When the revenue became sufficient, the second was to be established at Oxford in Talbot County, this was never done, and the one at Annapolis proved to be the only one ever established of the twelve originally planned.

By 1717 the people had lost hope of a school for each county, under the Act of 1696, and began an agitation for some other plan. Consequently, in 1723, an Act was passed establishing a corporation for each county consisting of seven persons and styled, The Visitors of the Free Schools of Maryland, and given the same power for their respective counties as was given the previous body for the entire Colony.

From this time on the schools established by these Boards passed through many stages, but all public education was distinctively county-wise with no semblance of a State system until 1865, nearly one hundred and fifty years later.

A good idea can be obtained as to the condition of primary education in the State for fifty years before the establishment of the State System by quoting from an article on this subject by the late Basil Sollers, who, after discussing the failure to carry out the Act of 1825, said:

"From this time the State is fully committed, and though lack of means prevented the realization of a State system of education before the period of the Civil War, the duty of providing primary schools throughout the State was fully recognized and many efforts, partial or general, were made to fulfill it. The volumes of the laws are crowded with special acts for counties, for districts in counties, for individual schools, showing a vast amount of scattered effort, which doubtless was not entirely without results. Indeed, in some counties fairly good primary schools existed before 1856."

when the agitation for a State System was again renewed.

That the chaotic condition of public education was coming to be appreciated is shown by the following quotation from the message sent by Governor Ligon to the Legislature of 1856:

"The system of public education in Maryland is in a state of the most utter and hopeless prostration. Our plan of public instruction must be constructed anew, made uniform in its operations throughout the State, supported more liberally by State and County resources, and, above all, it should be made subject to some controlling supervisory power, through whom all its operations should be annually communicated and made public, or it will fail to meet the exigency of our condition, or be attended with any public benefit."

That this powerful blast of the trumpet was not heeded before that comprehensive article on education was included in the Constitution of 1864 was doubtless due to the fact that other trumpets were blasting—the life of the Union was at stake.

The pendulum-like movement of progress is well illustrated by the educational legislation of this period. The aimless and conflicting manner in which the various educational interests of the different parts of the State had been drifting led to the passage in 1865, in pursuance of the Constitution of 1864, of an Act that provided a most excellent scheme for a system of public education embracing the entire State. The plan was well worked out and showed the great ability of the newly appointed State Superintendent, Dr. Libertus Van Bokkelen, but it gave far too much power to the central administration.

The State Board of Education, with the State Superintendent, had unchecked control. Among other things, they prescribed the text books; appointed the Commissioners for the counties, regulated their number, removed them at will, and issued a uniform code of detailed rules to be carried out by them.

The reaction was a natural one—the pendulum swung in the opposite direction, and as naturally swung too far.

The Constitution of 1867 simply provided that the General Assembly “shall by law establish throughout the State a thorough and efficient system of free Public Schools.”

The Committee on Education of the Legislature that met the following January reported a bill that retained the State Board of Education and the Office of State Superintendent, but with much less power. In the bill that finally passed, both were omitted. A Board of three trustees was to control the Normal School, and its Principal was given general supervision over all the Public Schools in the State, and charged with preparing a report of same annually, but all powers of administration were vested in the County Boards.

The next Legislature (1870) re-established the State Board of Education and made the Principal of the Normal School also State Superintendent of Public Instruction. In 1900 these offices were again separated, and they so continue.

Legislation, since 1868, in addition to keeping the school system abreast with the times has done much toward making a proper division of power between the State and the County authorities.

We append biographical sketches of the first three State Superintendents of Public Instruction.

LIBERTUS VAN BOKKELEN, D. D., LL. D.

Libertus Van Bokkelen was born July 22, 1815, in the city of New York. His paternal ancestry was of Dutch origin—his grandfather having been exiled from Holland, in 1796, by the French Government on account of his adherence to the Prince of Orange; his maternal ancestors were among the early Colonial Welch settlers.

His father, a New York merchant, had a deep appreciation of education, and his son was brought up in the best schools of the time.

At the age of 22, he established St. Paul's School at College Point, Long Island, which afterwards became the Preparatory School of St. Paul's College.

When 27, he took Holy Orders in the Protestant Episcopal Church and thereafter combined the duties of the ministry with educational work.

In 1845 he came to Maryland as rector of St. Timothy's Church at Catonsville. Here he founded a school known as St. Timothy's Hall, which for twenty years or more enjoyed the distinction of being one of the best known private schools in the South. While at St. Timothy's, he took a great interest in public affairs—civil as well as religious. He served churches at Elkridge Landing and Ellicott City, until they became self-supporting.

He was offered positions in Tennessee, Missouri and California, and elected president of both St. John's College and the Agricultural School near Bladensburg—but declined them all.

He served for a number of years as School Commissioner for the First District of Baltimore County, and acted as the Visitor of the Catonsville School.

St. Timothy's Hall was exceptionally well organized and equipped, being one of the first schools in the South to have a gymnasium and an expert teacher of physical training. The students were organized into a battalion of infantry and an artillery corps, and the State furnished the muskets, cannon and other equipment.

Scharf, in his "Chronicles of Baltimore," relates that, after the Northern troops had marched through the city in 1861 and the citizens were making preparations to resist a repetition of what had occurred, a party was sent to St. Timothy's Hall to take possession of the cannon for the defense of the city. When they were brought and put in position, it was found that they had all been carefully spiked. Rev. Van Bokkelen, being a Union sympathizer, got the credit for the job.

This school was at the height of its prosperity, and plans were being made for an extension of its buildings when the war broke out in 1861. These plans, of course, were frustrated, and the patronage—which was largely from the South—was much reduced, and Dr. Van Bokkelen suffered heavy pecuniary losses. In 1864 he rented the school buildings to Professor Parsons, who continued the institution under its old name.

In September of that year (1864) he accepted a call to the rectorship of St. Stephen's Church at Pittsfield, Mass., and had made preparations for his removal to that place when, on November 12th, Governor Bradford tendered him the appointment of State Superintendent of Public Instruction of Maryland.

In the Constitutional Convention of 1864, Hon. Joseph M. Cushing was Chairman of the Committee on Education and drafted the article that provided for a State System of Public Schools, as well as the office of State Superintendent. After the adoption of this

constitution, Mr. Cushing told Governor Bradford that, when he drafted this article, he had in mind Dr. Van Bokkelen as the best equipped man to perform the important duties of that office—and it was in this way that the appointment came to be made.

The constitution provided that the State Superintendent should, within thirty days after the first session of the General Assembly, report a uniform system of free public schools, and he immediately on his appointment began a most thorough investigation looking to this report. He studied carefully the condition of both public and private schools within the State and visited schools at New Britain (Conn.), Boston, Albany, and New York City. Visited and corresponded with State Superintendents of other States where State systems had been established, thereby taking advantage of their experiences.

This report, which was sound and comprehensive, was transmitted to the Legislature February 2, 1865. It consisted of an introduction, a bill proposed for enactment into law, divided into eight chapters, with the following headings:

- I. Supervision.
- II. That Which Is to Be Supervised.
- III. Modes of Securing Competent Teachers.
- IV. Sources of Income.
- V. University of Maryland.
- VI. Benevolent, Remedial and Reformatory Institutions.
- VII. Aid and Encouragement to Universal Education.
- VIII. Miscellaneous.

And followed by a commentary, explaining in detail the purport of the bill.

His plan, in brief, was to have a uniform system of Common Schools throughout the State, qualifying pupils for admission into any of the high schools and academies; a uniform course of instruction in these qualifying pupils for admission into the Freshman class of any one of the then existing colleges; a uniform course of scientific, classical, and mathematical instruction in these colleges (leaving each free to adopt added specialties) qualifying their graduates for admission into the Law, Medical, or Mechanical Departments of the State University.

His plans for higher education were never carried out, but inasmuch as they applied to the common schools, they formed the basis upon which our present school law is constructed.

The reactionary movement that followed the war abolished the office of State Superintendent as a separate position and changed

a number of minor details, but the plan in general remains intact today.

The labors of Dr. Van Bokkelen for the cause of education were not confined to Maryland. He was elected a director of the National Teachers' Association, in 1866; Secretary at the Nashville meeting, in 1868; and President when the Association met at Trenton, in 1869.

He was held in very high regard by the school people of the State, as shown by the resolution adopted at the meeting of the Association of School Commissioners of Maryland, December 5, 1867, when it became known that his connection with the school system would soon end. Among other things, this resolution said:

"It is our firm belief that, when these sources of misunderstanding shall have passed away, the name of Dr. Libertus Van Bokkelen will be placed as high as the highest on the list of the men identified in America with its greatest glory—free popular education."

In 1871 Dr. Van Bokkelen left Maryland to become rector of St. John's Protestant Episcopal Church, and head of the Jane Grey School at Mt. Morris, a village near Buffalo. Two years later he was appointed rector of Trinity Church, Buffalo, and continued in that work for four years, when he resigned.

In Buffalo he took a great interest in educational matters, was a leading advocate of Civil Service Reform, and a member of the Society for the Promotion of Religion and Learning.

While at Baltimore he had married, in 1852, a Miss D'Arcy, and reared a family of five children—one son succeeding him in the ministry.

He died on All Saints' Day, 1889, and was buried in Chicago.

M. ALEXANDER NEWELL, PH. D.

M. Alexander Newell, organizer of the Maryland State Normal School and for twenty-five years its principal, succeeded Dr. Van Bokkelen as Superintendent of Public Instruction of Maryland.

He was born in Belfast, Ireland, September 7, 1824. He was the son of John Newell, a distinguished educator in Ireland. His mother was, prior to her marriage, Miss Agnes Johnson, daughter of a farmer in comfortable circumstances.

Mr. Newell's education was primarily received in his father's school, and so thorough was his training in early life under the direction of his father that, at the age of fifteen, he taught Latin and Greek. His studies were further pursued at the private school

of Thomas Blain, who taught in the family of Earl Dufferin, who was once Governor of Canada; he then attended the Queen's College at Belfast, and finally Trinity College, Dublin, from which time-honored institution he graduated in his twenty-second year. During his course of study, he taught others, and thus helped to pay for his own tuition.

In 1846, shortly after his graduation, he married Miss Susanna Rippard, of Liverpool, England. Her father, George Rippard, and his brother were largely engaged in the shipping business between Liverpool and New York.

Desiring to visit America he embarked with his wife and babe on one of his father-in-law's vessels, intending to return to England within a few months. He changed his mind and located in Baltimore, accepting the position of teacher of natural sciences in the Central High School, now known as the Baltimore City College. This he resigned for a professorship in Madison College, Uniontown, Pa.

He soon returned to Baltimore to become associate principal with his wife's brother in a large business college. In a few years he was obliged to seek another position because of the many students who left the college to join the Southern army.

Mr. Newell then applied for and obtained the principalship of one of Baltimore's largest grammar schools for boys. He remained here for one year only, accepting a call to Pittsburgh to assist his cousins, John and James Newell, in the management of a private school.

Mr. Newell's work in Baltimore as a teacher was of so marked character that when the General Assembly of 1864 established a State Normal School he was called from Pittsburgh to become its principal.

Here his master work in life began. He gave to it twenty-five years of boundless energy.

In 1868, by an enactment of the Legislature, the offices of State Superintendent of Public Instruction and Principal of the State Normal School were united. Mr. Newell took up these dual duties with courage and determination. That he performed them well all cognizant of conditions in Maryland schools at that time will bear ample testimony. His position was no sinecure. He brought to the task an ardent love for public education, a broad scholarship, and an intimate knowledge of the needs of the public schools. The system organized under Dr. Van Bokkelen was not yet fully established, and upon Mr. Newell devolved the duty of installing a new

system and harmonizing the discordant elements existing between the partisans of each. He took up the scattered threads of the system legislated out, he undid the tangles that necessarily come when one system replaces another, the two closely resembling in some places yet widely differing in others. That there was no more friction or dissatisfaction occasioned by the change was due in a great measure to the intelligent foresight of the new superintendent, to his ability as an executive, and to the sympathy he felt for all men.

Mr. Newell had many friends. Nearly every school official in Maryland was in close contact with him and was his faithful ally in the good work he did. Experience had taught the officials his worth. They gave him their confidence, help and admiration; they came to him for counsel, which counsel he freely gave and they went from him encouraged and strengthened in their ability to do and their power to enforce.

As State Superintendent Mr. Newell infused new life into the schools. His broad, generous views of education, his analytic mind and well-balanced judgment, stamped every act of his with liberality and intelligence in the management of the schools.

He welcomed new ideas and new methods when based on a study of the mind, or if useful in their aims; he rejected mere temporary expedients or attractive devices.

Mr. Newell was connected with many educational boards. As a member of the Board of Managers of the Maryland Institute he was its earnest and intelligent friend. He early recognized the value of special preparation in drawing, not merely as an industrial advantage but as an adaptation in the teaching process toward developing the idea, or making clear the aim.

He was one of the foremost men to urge the introduction of manual training into the public schools. When president of the National Teachers' Association he spoke eloquently and forcefully in its behalf. As a presiding officer he was gracious, unbiased, tactful; quick to recognize every speaker and just as quick to prevent by his good nature and ready wit any ill-feeling incident to a debate.

His knowledge of men and events, combined with his keen insight and cautious judgment made him an able debater; his wit which never deserted him; his ability to relate at the proper moment an incident or story appropriate to the question won his hearers where his logic failed to convince them.

As a teacher Mr. Newell was at his best. He loved to gather his students around him to draw from their ideas, to lead them to discover new truths, and to put into form the thoughts they grasped. He taught them to rely upon their own efforts and to make good use of their opportunities. He did not prompt or tell them, he did not work *for* them, he worked *with* them. He stimulated them to effort, he inspired them to do. And this inspiration has lasted through life. There are no better teachers in our schools today than those who were graduated under Mr. Newell's administration, notwithstanding it is nearly twenty years since the last of his pupils entered the service.

There was nothing sentimental or weak, or purposeless in the inspiration that had its source in Mr. Newell. There was no gathering of teachers whose members were not incited to greater and better efforts in their work for Mr. Newell's having been among them.

For years at the different institutes in the State Dr. Newell was often the only instructor outside of the examiner of the special county where the institute was held. But there was good work done, because the many wished to learn; while in the remaining few idleness or inattention was not tolerated.

The Maryland School Journal, of which Dr. Newell was one of the originators, was edited by him for a number of years. He is also the author of a series of six Readers, which were extensively used.

This man of intense personality, or rare versatility, of generous sympathies, this teacher of teachers died on August 14, 1893, after an illness of several weeks.

E. BARRETT PRETTYMAN, LL. D.

The third State Superintendent of the schools of Maryland, after the inauguration of a State school system, was Dr. Prettyman, who entered upon the duties of State Superintendent and Principal of the Maryland State Normal School September 1st, 1890. For several years before his appointment to these positions he was not actively identified with public school work, but by education and training in his earlier manhood he soon adapted himself to the administrative side of the work to which he had given much thought and energy when a young man as a teacher. He began his teaching career at West River, in Anne Arundel County. He read law, but never applied for admission to the bar. He concluded to resume teaching and accepted the principalship of the Brookville Academy.

which position he held for eleven years. He was a graduate of Dickinson College, a member of the Class of 1848, and, besides the degree of Master of Arts, his Alma Mater conferred on him in 1894 the honorary degree of Doctor of Laws. Apart from his scholarship Dr. Prettyman was a man of exceptional general information, a ready debater and a public speaker of much force. History, philosophy and pedagogy were favorite studies of his, and his library was full of texts and references pertaining to these subjects. He possessed the admirable qualities of the polite and courteous gentleman, and deservedly had a large personal following. His administration was characterized by conservatism as State Superintendent, but he was always on the side of wholesome legislation to increase the efficiency of the school system.

Dr. Prettyman was small in stature but he made every inch of his height tell by his splendidly erect figure and dignified carriage. His eyes were brightly black but wore a kindly and intelligent look. These personalities with his white hair and courtly bearing gave him a distinction which won for him instant respect and deference.

He was a man of deep religious convictions and had the courage to maintain them. His reverence for all things sacred was impressed upon those associated with him in his daily life. A high moral purpose dictated his every action, and he expected from all associated with him the same uprightness and truthfulness that were exemplified in his own daily life.

As a citizen he was intelligent, discreet, helpful in all that tended to make one's environment more desirable, more wholesome. He was interested in all political and social questions of the day and had no patience with men who were indifferent to vital questions affecting the government of country or State.

In his family his relations with wife, sons, and daughters were of the most beautiful kind, and the hospitality of his cultured home was extended to all. Towards his pupils he ever showed himself the wise counsellor, the sympathetic friend, the solicitous guardian, and his moral influence upon them was of the highest character.

With his faculty his relations were most friendly. Its members felt the right to join the home circle of their principal as welcome guests whenever opportunity offered.

While principal of the Normal School Dr. Prettyman introduced few marked changes in its organization, rather emphasizing that which was good.

The building was enlarged, the course in vocal and manual training extended, and the enrollment greatly increased.

On methods of instruction Dr. Prettyman was conservative, holding tenaciously to what the past had demonstrated good and safe. The individuality of his teachers was never interfered with, each being considered sufficiently strong in her subject, as well as in the principles underlying its teaching.

Owing to advancing years he retired from the management of the school August 1st, 1905, and was succeeded by Dr. George W. Ward. In 1900 he advocated a law which separated the offices of Principal of the State Normal School and State Superintendent, and after the enactment of the law and the appointment by the Governor of another person as State Superintendent he devoted all his time to the duties of principalship of the Maryland State Normal School until his retirement from that position.

He was born at Williamsport, Pa., February 20, 1830, and died at his home in Rockville, Md., in December, 1907.

COUNTY SUPERINTENDENTS' SUPPLEMENTARY REPORTS.

CECIL COUNTY.

ELKTON, Md., August 20, 1909.

HON. M. B. STEPHENS,

State Superintendent of Education.

MY DEAR SIR:—I have the honor to send herewith the annual report for Cecil County.

During the year we have established two commercial schools, one at Chesapeake City, and one at Elkton, with fourteen and fifteen pupils respectively, in the first year classes next year we hope to have second year classes and thus double the attendance.

We are teaching commercial arithmetic, commercial geography, the use of typewriters and shorthand, in addition to the usual academic branches.

Near the close of the year I made a test in the shorthand, by reading a letter, taken from my pocket, which was reproduced without an error.

We have completed two new houses, we think models, in size about 58 by 60 feet, one at Cecilton and one at Perryville. Each have Port Deposit granite base, brick above, slate roof, abundance of solid slate black boards and steam heat, at a cost of about \$9,000 each.

Very respectfully yours,

GEORGE BIDDLE,
County Superintendent.

CAROLINE COUNTY.

DENTON, Md., July 29, 1909.

DR. M. BATES STEPHENS,

Secretary State Board of Education, Annapolis, Md.

MY DEAR SIR:—I hereby submit to you the report of the School Commissioners of Caroline County for the scholastic year ending May 28, 1909, and the fiscal year ending July 31, 1909.

We take pleasure in reporting that nearly two hundred more pupils have been enrolled in our schools during the past year than any preceding one, and that the average attendance has been greatly increased.

Observation has been made that of the twenty-one teachers in attendance upon summer schools last summer, at least fifteen of them have raised their classification the past year through their better work, and consequently have increased their salaries for the coming year, some of them to a greater extent than the cost of their summer instruction.

It is easy to recognize the broadening effect of the summer school upon the teachers and their work, and considerable advantage is gained, too, in having teachers attend different schools so as to meet different conditions.

Several trustees' meetings were held throughout the county the past year, at which topics relative to their duties were discussed by them, some visitors and a representative of the School Board. Likewise, a joint meeting of trustees and teachers was held, at which meeting two members of the State Board of Education were present and delivered forcible addresses. The opinion generally was that these meetings were very beneficial, and an effort will be made to continue them the coming year. Our trustees cannot be too well informed as to their duties to enable them to act intelligently.

About one-fourth of our teachers purchased school library books during the year, with legal aid from the School Board, after the list of books to be ordered had been examined carefully.

We find a great need for more library books for the primary grades, as the love for reading good literature must be acquired there, if at all.

The joint Institute with Talbot County held at Easton the first two weeks of September, last, proved to be one of the best we have ever had. Teachers were divided into four groups—primary, intermediate, rural and high school, and instruction was given accordingly. Our teachers seemed to feel that the joint Institute was the best for our purposes.

We are glad to be able to report that Talbot and Caroline Counties have joined for the purpose of closer supervision, and employed two trained instructors who will work alternately in the two counties for a period of four weeks. Our primary grades need closer supervision, and many of our pupils in the grammar grades show the need of it just as badly, as considerable time is

wasted in misdirected efforts as well as in the use of poor methods. Every year emphasizes the fact that all possible means must be employed to improve the teachers in service. This is especially true when small salaries are paid.

I am anxiously awaiting the day when the State of Maryland will have just one Central Normal School to maintain, with proper dormitories, and a sufficient appropriation to enable a student to receive instruction therein at a cost of not over seventy-five a year.

With great respect, I am,

Very truly yours,

E. M. NOBLE,

County Superintendent.

HARFORD COUNTY.

DR. M. BATES STEPHENS,

Secretary State Board of Education.

MY DEAR SIR:—I herewith submit to you the report of the School Commissioners of Harford County for the scholastic year ending June 30, 1909, and the fiscal year ending July 31, 1909.

The progress of our schools throughout the year has been characterized by a more than usual degree of harmony among teachers, and between teachers and patrons. A very marked improvement has been noticed in the matter of changes in teachers, the large majority having retained throughout the year, the positions taken in September. Teachers as a rule have done a high class of professional work, and in several sections of the county have organized State Reading Associations for the study of State Reading Course. It is our aim to have such associations formed with the High Schools as centers, thus placing facilities for systematic study within convenient reach of many of our teachers. I wish to note specially the excellent work done during the past year in special pedagogical reading by the Association at Bel Air, under the direction of Principal H. P. Porter, and at Jarrettsville under supervision of Principal Gilbert C. Cooling. Other groups have done much careful reading, but I have mentioned the two largest.

On January 30th, the splendid new High School building at Aberdeen was formally opened and dedicated, since which date it has been in use. This building consists of six spacious school-

rooms, with cloakrooms and necessary book closets, a large basement for playrooms and Manual Training Department, and is heated throughout by a modern basement furnace. The Board is at present contracting for a new two-room house at Youths' Benefit, near Scarff Postoffice, to which building the patrons will contribute probably \$500 in money and labor. This is significant because it simply illustrates the general spirit and custom of our people when new school houses are needed. The people of Highland last year contributed nearly \$1,000 for their new High School, and those at Aberdeen made a cash contribution of \$3,000.

As indicated in last year's report, two commercial departments have been established, one at Bel Air, and one at Havre de Grace, each in connection with the High School, and the students of these departments have taken, in connection with the commercial branches, the required academic studies. A number of young people have shown a keen interest in these new departments, and we are looking for considerable expansion of the work next year. Miss A. B. Corman at Bel Air, and Mr. H. C. Ward at Havre de Grace, have both proved themselves earnest and efficient in their duties.

We note with satisfaction the improved scholastic standing of applicants for Teachers' certificates and Normal scholarships. This improvement we attribute largely to the more extended and more scholarly course in our High Schools, these being now so well distributed over the county as to place additional facilities within reach of nearly all our people. The graduates from our six High Schools are either entering the Normal, or applying for positions as teachers, and the effect seems already to be a larger number of available teachers, much better qualified as to scholarship.

The annual increase in teachers' salaries has generally ranged from \$500 to \$1,000, but the advance of the year 1908-9 over that of 1907-8, was \$2,566.15. This advance would have been \$1,200 greater had the colored schools been run four terms instead of three, as in 1907-8, thus making a total increase for ten months of \$3,766.15, had the colored schools been continued. This increase in salary account, owing largely to the law of 1908, fixing larger minimum salaries for first-class teachers, our Board has endeavored to meet, though at considerable financial strain. For the year 1909-10 our Board of County Commissioners have generously come to our aid by an additional appropriation of \$2,000, making their regular allotment for schools \$44,000, as against \$42,000 last year. This

does not include special aid given to the amount of \$5,000 for the new building at Aberdeen.

The increase in salaries of first-class teachers of three years' service and upward will tend to hold many teachers, who though preferring to teach at home, will go elsewhere if offered large salary advance. The tendency to show small schools with low average is also lessened, since experienced teachers of first class can command better pay in small schools than under old conditions. The results of the new law as to salaries have been beneficial, and our people will, we believe meet the additional expense cheerfully if convinced that the interests of public education demand it.

The fact that many counties of the State give a short school year to the colored people, has induced a number of the best colored teachers of those counties to seek employment with us, thus securing ten months' work in lieu of four or five. For this reason Harford has at present an exceptionally strong corps of colored teachers.

In many phases of our school work, conditions are not just what we desire, but we believe that they are at the same time improving, and that the future is bright with the promise of a still higher standard of equipment both physical and intellectual.

Very respectfully submitted,

CHAS. T. WRIGHT,

Superintendent.

NATIONAL EDUCATION ASSOCIATION OF THE UNITED STATES.

In Convention Assembled at Denver, Colorado, July 8, 1909.

DECLARATION.

The National Education Association, now holding its Forty-seventh Annual Convention in Denver, representing teachers and friends of education in every State of the Union, makes the following Declaration of Principles and of Aims:

1. A free democracy cannot long continue without the assistance of a system of State-supported schools, administered by the chosen agents of the people and responsible to the people for its ideals, its conduct, and its results. The commanding position of the American people is largely due to the general diffusion of knowledge and culture by its free schools.

2. Our system of State-supported schools must include elementary schools, secondary schools, schools for the training of teachers, and State universities. The changed conditions of the twentieth century also demand the establishment of free schools whose purpose shall be the training of our youth for commerce and the industries, as well as for the professions.

3. The purpose of our system of free common schools must continue to be chiefly culture for the individual and the transmission to posterity of the results of investigations and deliberations of the past. Our free schools must advance along the lines of educational democracy in the sense that they must provide equal educational opportunities for all. Although they must give practical preparation not only for the professions, but also for commercial life, the demands of any part of the business world that courses of study be subordinated to particular interests is not in accord with the proper aims of a national system of common schools.

4. A system of common schools that will meet the needs of times must be democratic in its purpose and its administration; must recognize the importance of expert supervision, of better and more numerous schools for the training of teachers, of a merit system for the appointment and promotion of teachers; and it must exclude

fraternities and secret organizations of every sort from the social life of the school.

5. The common schools of our country must recognize more fully than ever the necessity of training our youth for citizenship. The perpetuation of democracy depends upon the existence in the people of that habit of will which is justice. Liberty under law is the process for attaining justice which has thus far been most successful among civilized men. The call to citizenship is a call to the exercise of liberty under law, a call to the limitation of liberty by law, and a call to the pursuit of justice, not only for one's self but for others.

6. The National Education Association endorses the purpose of the American School Peace League. The Association believes that the principles of the League will make for effective citizenship, and urges all teachers to acquaint themselves with the work of the League and to co-operate with it.

7. The increased tendency to congestion of population in cities makes necessary greater and more systematic attention to the physical development of our children. No vigorous race of people has long maintained a high state of civilization under conditions that did not take into consideration the physical as well as the mental and moral development of its youth. The Association recommends that provision be made by the United States Bureau of Education for effective promotion of physical education through the diffusion of scientific information on this subject.

8. The National Education Association approves the ever-increasing demand for better qualified teachers in the common schools. This higher standard must lead logically to a longer tenure and to a compensation more nearly commensurate with the quality of preparation and with the nature of the service rendered.

9. The National Education Association heartily endorses the use of school buildings and all school equipment for community interests and social betterment.

10. The National Education Association endorses the movement to consolidate the rural district schools wherever practicable, and expresses the hope that this movement will be encouraged until the children of rural communities enjoy the benefits of public education to an extent approximating those now supplied to children of urban communities.

11. The National Education Association gives its hearty endorsement to the work of the National Bureau of Education, the Carnegie Foundation, the General Education Board, and all associations,

institutions and organizations that are working to develop and promote the educational interests of the country.

Respectfully submitted,

EDWIN G. COOLEY, of Massachusetts, *Chairman*,
JOHN H. PHILLIPS, of Alabama,
CHARLES H. KEYES, of Connecticut,
AUGUSTUS S. DOWNING, of New York,
SYLVANUS L. HEETER, of Minnesota,

Committee on Resolutions.

Adopted by unanimous vote of Active Members in session, July 8,
1909.

IRWIN SHEPARD,
Secretary.

RESOLUTIONS ON THE DEATH OF HON. RUFUS
K. WOOD—ADOPTED BY THE STATE BOARD
OF EDUCATION, JUNE 10, 1909.

WHEREAS, we have heard with profound sorrow of the death of our friend and colleague, Mr. Rufus K. Wood, for more than four years an honored member of the State Board of Education; and,

WHEREAS, during his term of office, Mr. Wood was brought into close and intimate relations with all of the members of said Board, who thus learned to know his high and noble character and to recognize the great value of his public services so freely given in the cause of education; and,

WHEREAS, it is deemed right and proper that the records of said Board should set forth in fitting terms some testimonial showing the value of such services to the people of the State, and of the love and esteem in which he was held by his associates of said Board,—

Now, therefore, be it by the State Board of Education,

RESOLVED, That, by reason of his exalted character, broad and liberal mind, mature and evenly balanced judgment, and constant devotion to duty, Mr. Wood was a strong advocate and zealous supporter of every measure or policy looking towards the improvement of the public schools of the State.

RESOLVED, That in his lamented death, the members of this Board have sustained the loss of a sincere and valued friend, an able and honored associate, and a wise and safe counsellor; the cause of public school education one of its most earnest and willing workers, and the State of Maryland one of her purest, best and noble citizens.

RESOLVED, That these resolutions be spread upon the minutes of this Board, and a copy thereof transmitted to his bereaved family.

FINANCIAL REPORTS.

ANNE ARUNDEL COUNTY.

ANNAPOLIS, Md., Aug. 27th, 1909.

DR. M. BATES STEPHENS,

State Superintendent of Education, Annapolis, Md.

DEAR SIR:—I transmit herewith my Annual Report of the Public Schools of Anne Arundel County for the scholastic year ending July 31st, 1909. Having taken charge of the superintendency only at the beginning of the year, I do not feel that I am in a position to make any comment which would be of any value to you in enabling you to form any opinion other than what may be gathered from this report.

Yours respectfully,

SAMUEL GARNER, *Superintendent.*

SUMMARY OF SCHOOL STATISTICS.

FOR THE YEAR ENDING JULY 31, 1909.

	1909.	1908.
Number of schoolhouses owned by the county, 90; rented, 22; total.	112	115
Number of male teachers (principals), white, 5; colored, 7; total...	12	17
Number of female teachers (principals), white, 68; colored, 31; total.	99	93
